Next week I will be spending a few days Annual Leave in my home town of Bolton, Massachusetts. The above-captioned person is being given a testimonial dinner while I am in town. He is a 75-year-old man whom I have known all my life. O'Donnell is an unusually civic-minded person and has given a tremendous amount of himself to the people of the community. Hence, the testimonial dinner given in his honor.

I have been asked to make some remarks at the testimonial dinner. Unless advised to the contrary, I will do so.

Review of the indices reflects no information identifiable with O'Donnell.

Dear Mr. Sullivan:

I have carefully reviewed the results of the inquiry recently made concerning the investigation and supervision of an extremely important case and it is apparent that a number of glaring shortcomings were found. The investigation was not carried out with the penetrativeness and thoroughness required by FBI standards and these deficiencies certainly reflect inadequate supervision by your division. In addition to certain delays, including the handling of a critical interview, there was a failure to place the subject's name in the Security Index. The reasons submitted by you and your subordinates for handling the matter in the way they did have been thoroughly reviewed but they do not justify the existing delinquencies.

In view of this I shall expect you to take prompt and appropriate action to eliminate such failures in the future and to make certain that all investigative matters supervised by the Domestic Intelligence Division are carried out in accordance with the Bureau's high standards. REC-131

FROM : J. H. GALE

SUBJECT: LEE HARVEY OSWALD  
INTERNAL SECURITY - R  
Dallas Texas

Director instructed that complete analysis be made of any investigative deficiencies in Oswald case and analysis made concerning any necessary changes in our procedures re handling cases of this type -- analysis re procedure changes and dissemination policies handled separately.

## RESULTS OF FINDINGS RE INVESTIGATIVE DEFICIENCIES:

It is definitely felt subject Oswald should have been on the Security Index (SI) based on following facts: (This is based solely on information in our files at time of and prior to assassination and does not take into consideration information subsequently developed.) (1) Subject's defection to Russia and statement that he never would return to United States for any reason. (2) Stated he was Marxist and advised Department of State he would furnish Soviets any information he had acquired as Marine Aviation Electronics Expert. Also affirmed in writing allegiance to Soviet Union and said service in Marine Corps gave him chance to observe American imperialism. According to State Department Oswald displayed air of new "Sophomore" Party liner at that time. (3) Upon returning to the United States Oswald displayed cold, arrogant, general uncooperative attitude and refused to take Bureau Polygraph test to determine if he had cooperated with the Soviets or had current intelligence assignment. (4) On 9/28/62 it was learned Oswald was subscribing to "The Worker," east coast Communist newspaper. (5) In April, 1963, learned he had been in contact with Fair Play for Cuba Committee, New York, and passed out pamphlets and had placard around neck reading "Hands Off Cuba - Viva Fidel." (6) Wrote letter June 10, 1963, to "The Worker" asking for literature saying he was forming Fair Play for Cuba Committee in New Orleans and he sent honorary membership to "those fighters for peace" Mr. Gus Hall and Mr. B. Davis (Ben Davis). (7) Arrested August 9, 1963, New Orleans, passing out Fair Play for Cuba pamphlets on street. Shortly thereafter interviewed on radio and said Russia had gone soft on Communism and Cuba only real revolutionary country in world today. (8) Contact with Soviet Embassy, Mexico September and October, 1963.

Field and Seat of Government employees who handled instant case of maintain subject did not come within SI criteria. Inspector does not agree, believing that Oswald came within following category: "Investigation has developed information that an individual though not a member of or participant in the activities of subversive organization, has anarchist or revolutionary beliefs and is likely to seize

Memorandum for Mr. Tolson  
Re: Lee Harvey Oswald

upon the opportunity presented by the national emergency to endanger the public safety as shown by overt acts or statements within the last three years, established through reliable sources, informants or individuals."

Upon subject's return from Russia to Texas on 6/14/62, he was interviewed and displayed a recalcitrant attitude. The only investigation conducted was to interview a number of Government officials, three relatives and check with two Communist Party informants. The case was then closed after a second interview with subject by Dallas report dated 8/30/62. No neighborhood or employment sources developed, wife not interviewed, mail covers or other techniques not used to determine whom Oswald in contact with or whether he had intelligence assignment. Inspector feels this limited investigation inadequate. Dallas Agent responsible for delinquencies until 3/26/63 was Special Agent John W. Fain, who is now retired, and no explanations obtained from him.

Dallas reopened case 3/26/63 assigned to Special Agent James P. Hosty, Jr., and supervised by Field Supervisor Kenneth C. Howe. After sending Bureau a letter on 3/25/63 setting out leads to determine Oswald's employment and consider interviewing Oswald's wife, the Bureau was not furnished any information until 8/23/63 and then only after the Bureau had made inquiry of Dallas. It was not until 9/10/63 that Dallas reported subject Oswald subscribed to "The Worker" on 9/28/62 and on April 21, 1963, had been in contact with New York Fair Play for Cuba Committee, advising then that he passed out Fair Play for Cuba pamphlets and had placard around neck reading "Hands Off Cuba - Viva Fidel." Relief Supervisor [redacted] advised he receive information from New York concerning subject's subscription to "The Worker" and took no action except to route it to former Agent Fain. He advised he did not feel this information warranted reopening case. Inspector does not agree, but feels in light of subject's defection, case should have been reopened at first indication of communist sympathy or activity.

b6  
b7c

Special Agent Hosty advised that New York did not report Oswald's 4/21/63 Fair Play for Cuba contact to Dallas until letter sent 6/27/63 and Dallas did not feel it necessary to report it to Bureau until 9/10/63. Hosty admits it "possibly" would have been better to have reported on this matter earlier.

Special Agent Francis I. Lundquist, New York, handled this matter and states information was received from anonymous source and that because of heavy volume of such material he handled urgent matters first and finished entire processing at approximately the end of June, 1963.

Supervisor [redacted] New York, makes similar explanation. Inspector feels 66-day delay from 4/21/63 to 6/27/63 entirely too long to process such material, particularly inasmuch as New York in no position to determine value of some of this material to other offices who have active cases opened on individuals concerned.

Memo for Mr. Tolson  
Re: Lee Harvey Oswald

Hosty advised Dallas considered the most important aspect of this case the interview of Oswald's wife and did not deem it advisable to interview her in March, 1963, because they developed information that Oswald drinking to excess and beat up wife on several occasions. Hosty stated that they allowed a 60-day "cooling-off period" and then couldn't locate Oswald or his wife until New Orleans located them in New Orleans and advised Dallas on 7/17/63. No instructions given New Orleans to interview Mrs. Oswald.

*Certainly an asinine excuse*  
Hosty advised that after Oswald's return to Dallas was verified on 11/1/63 no interview was conducted of Mrs. Oswald because Dallas awaiting information from New Orleans. Hosty advised investigation was designed to avoid having Oswald's wife "gain the impression she was being harassed or hounded because of her immigrant status in order that the interview when conducted might be as productive as possible."

*Just don't understand such solicitude*  
Inspector feels this entire facet of investigation mishandled. Mrs. Oswald definitely should have been interviewed and Inspector feels best time to get information from her would be after she was beaten up by her husband as it is felt she would be far more likely to cooperate when angry at Oswald than otherwise.

*This certainly makes sense.*  
On 11/1/63 Dallas determined from Mrs. Ruth Paine that Oswald working at the Texas School Book Depository (place from which assassination shot fired by Oswald). Mrs. Paine unaware of Oswald's residence but stated Oswald's wife living with her. SA Hosty states he made pretext telephone call to Oswald's place of employment and was told Oswald residing with Mrs. Paine. Not recorded in file. On 11/5/63 Mrs. Paine recontacted and unable to furnish information as to Oswald's residence address, but stated Oswald had visited his wife at Paine's house on 11/2 and 3/63. At this point Dallas held investigation in abeyance and no further investigation made until assassination.

SA Hosty explained that he held investigation in abeyance to be certain he was in possession of all information from New Orleans so he could possibly interview Mrs. Oswald and conduct further investigation. He was aware as of 10/18/63 that Oswald had been in contact with the Soviet Embassy in Mexico City but felt because Oswald was employed in nonstrategic position (S)(u) where he would not have access to information important to national defense that he was justified in holding investigation in abeyance. Inspector definitely does not agree. New Orleans submitted 16-page report 10/31/63 and only leads outstanding in New Orleans were to ascertain Oswald's whereabouts. No indication New Orleans had any further data and New Orleans RUC'd case by form 11/19/63. Even if New Orleans had not reported all information in their possession, Dallas should have intensified investigation in light of Oswald's contact with Soviet Embassy (S)(u) and not held investigation in abeyance. Supervisor Kenneth Howe advised he

Memo to Mr. Tolson  
Re: Lee Harvey Oswald

discussed above investigative steps with Hosty and concurred with the manner in which handled. Both Hosty and Howe did not feel Oswald made Security Index criteria.

Washington Field Office airtel of 11/19/63 reporting [contact of Oswald with Soviet Embassy,] Washington, on 11/18/63, received by Dallas on 11/22/63. No delinquency here and it will also be noted that Dallas was aware [Oswald in contact with Soviet authorities in Mexico on 10/18/63.] (S)(u)

Lead set out by Dallas in March 25, 1963, letter for Dallas to determine present employment of Oswald and, thereafter, determine whether wife should be interviewed. This was not followed by Bureau for approximately five months until 8/21/63 when Dallas was asked about this lead after subject arrested in New Orleans for distributing Fair Play for Cuba pamphlets. Seat of Government Supervisor W. Marvin Gheesling states additional investigation not conducted until subject arrested for Fair Play for Cuba activity inasmuch as he reviewed investigation and evaluated that subject was not engaged in activities inimical to the United States. Gheesling states did not feel interview of subject's wife warranted and did not feel case should be reopened at Bureau on 3/25/63 merely to follow Dallas re consideration of interviewing wife. Gheesling advised he did not feel subject's activities came within purview of SI criteria.

It will also be noted that stop placed against subject in Identification Division which was removed by Gheesling on 10/9/63 after subject arrested in New Orleans for Fair Play for Cuba Committee on 8/9/63. Gheesling advised stop was placed in event subject returned from Russia under an assumed name and was inadvertently not removed by him on 9/7/62 when case closed. Inspector feels Gheesling in error in removing stop on subject in Ident on 10/9/63, particularly after arrest on 8/9/63 for Fair Play for Cuba Committee activity in New Orleans. We might have missed further arrests without stop in Ident. Inspector also feels Gheesling erred in not having additional investigation conducted when subject returned to United States and Gheesling wrong in not having subject placed on SI.

Instant case supervised at Seat of Government by Nationalities Intelligence Section regarding Fair Play for Cuba aspects and the Espionage Section regarding defection aspects [and contact with Soviet Embassy in Mexico.] Seat of Government Supervisor [redacted] supervised the Fair Play for Cuba aspects of this case from 8/16 until 10/31/63. He failed to have Oswald put on the SI in spite of considerable Fair Play for Cuba activity coupled with soviet defection background. In explanation he claims he did not feel Oswald met criteria for inclusion on SI. (S)(u)

Memo for Mr. Tolson  
Re: Lee Harvey Oswald

[On 10/10/63 Central Intelligence Agency (CIA) sent teletype to Bureau advising Oswald in contact with Soviet Embassy in Mexico City.] This was routed to Supervisor Elbert T. Turner of the Espionage Section to whom case then assigned, who initialled same for file and took no action. By cablegram 10/18/63 Legat, Mexico City, advised they received instant information that day from [CIA, Mexico City.] Legat asked Bureau to send pertinent background to Mexico City and advise interested offices. 10/18/63 cablegram received Bureau Saturday 10/19/63 by Supervisor [redacted] and reply not made to Mexico City until Tuesday P. M., 10/22/63. [redacted] advised he routed this material with main file to Turner and conferred with Turner on 10/21/63. States because of pressure of the other work on Turner's desk, [redacted] prepared outgoing communication for Mexico City, New Orleans, and Washington Field Office on 10/22/63. [redacted] explains he did not consider Oswald for SI at that time because he did not feel Oswald met criteria. Inspector feels [redacted] shares in responsibility for delay in answering Legat's cablegram of 10/18/63 and is in error for not having Oswald on SI. (S)(u)

SOG Supervisor Turner failed to take any action on [CIA teletype of 10/10/63, advising subject made contact with Soviet Embassy, Mexico City,] stating it did not appear to him any action warranted. Legat by cablegram 10/18/63 received these data from [CIA, Mexico,] and had to ask Bureau for background information and tell Bureau to advise interested offices. Inspector feels Turner should have done this on 10/10/63 and also instructed field to intensify investigation in light of [Oswald's contacting Soviet Embassy, Mexico.] Turner also failed to put subject on SI, stating he did not feel Oswald met criteria. Turner advised that although case assigned to him since 10/10/63 he did not review file until after assassination stating he had general idea of background of case. He explained that his preoccupation with [redacted] Espionage Case precluded his reviewing complete file. Section Chief William A. Branigan advised Turner not over-assigned. During October, Turner supervising 104 cases with voluntary overtime 2'34". Instant case would have required approximately one to two hours to completely review. (S)(u) b6 b7C

SA [redacted] handled case in New Orleans from 7/18/63. No report submitted until 10/31/63. Bureau not advised until report of 10/31/63 that Oswald wrote to "The Worker" on June 10, 1953, requesting literature to assist him in establishing Fair Play for Cuba Committee in New Orleans, and sent honorary membership cards for Ben Davis and Gus Hall. [redacted] advised that although investigative period extended from 7/23 through 10/25/63, continuous attention was afforded this case.

SAC Maynor supervised case and shares responsibility for delay in advising Bureau; also failed to put on Security Index, saying they did not feel subject met criteria.

Memo for Mr. Tolson  
Re: Lee Harvey Oswald

OBSERVATIONS:

As indicated above, there were a number of investigative and reporting delinquencies in the handling of the Oswald case. Oswald should have been on the Security Index; his wife should have been interviewed before the assassination, and investigation intensified - not held in abeyance - [after Oswald contacted Soviet Embassy in Mexico.] It was handled by two different Sections in the Domestic Intelligence Division, i.e., Nationalities Intelligence and Espionage. While Section Chiefs Wannall and Branigan did not see instant file or participate in the supervision of this case, it is felt that they have certain over-all responsibility for properly indoctrinating and training subordinate supervisory personnel and should be censured. This also applied to Inspector Donald E. Moore, who heads the Espionage - Research Branch, and Assistant Director William C. Sullivan. (U) (\$)

Likewise, SACs Curtis O. Lynam, assigned Dallas until 4/24/63 and J. Gordon Shanklin, assigned Dallas since 4/22/63, did not have an opportunity to review instant file. However, it is felt that they have over-all responsibility for properly training and indoctrinating subordinate personnel and should be censured.

Concerning the administrative action recommended hereinafter, there is the possibility that the Presidential Commission investigating instant matter will subpoena the investigating Agents. If this occurs, the possibility then exists that the Agents may be questioned concerning whether administrative action had been taken against them. However, it is felt these possibilities are sufficiently remote that the recommended action should go forward at this time. It appears unlikely at this time that the Commission's subpoenas would go down to the Agent level.

RECOMMENDATIONS:

1. James P. Hosty, Jr. (Veteran), Dallas - Censure and probation for inadequate investigation including earlier interview of Oswald's wife, delayed reporting, failure to put subject on Security Index, and for holding investigation in abeyance after being in receipt of information [that subject had been in contact with Soviet Embassy, Mexico City.] If approved, to be handled by the Administrative Division. ADDENDUM: C. D. DeLoach:hif 12/10/63

I recommend that the suggested disciplinary action be held in abeyance until the findings of the Presidential Commission have been made public. This action is recommended inasmuch as any "leak" to the general public, or particularly to the communications media, concerning the FBI taking disciplinary action against its personnel with respect to captioned matter would be assumed as a direct admission that we are responsible for negligence which might have resulted in the assassination of the President. At the present time there are so many wild rumors, gossip, and speculation that even the slightest hint to outsiders concerning disciplinary action of this nature would result in considerable adverse reaction against the FBI. I do not believe that any of our personnel will be subpoenaed. Chief Justice Warren has indicated he plans to issue no subpoenas. There is, however, the possibility that the public will learn of disciplinary action being taken against our personnel and, therefore, start a bad, unjustifiable reaction.

ADDENDUM (AHB:csh), 12/10/63:

It is significant to note that all of the supervisors and officials who came into contact with this case at the seat of government, as well as agents in the field, are unanimous in the opinion that Oswald did not meet the criteria for the Security Index. If this is so, it would appear that the criteria are not sufficiently specific to include a case such as Oswald's and, rather than take the position that all of these employees were mistaken in their judgment, the criteria should be changed. This has now been recommended by Assistant Director Gale.

Aside from the above, I agree with Mr. DeLoach's observations.

Mr. William C. Sullivan  
Federal Bureau of Investigation

Dear Mr. Sullivan:

I am indeed pleased to commend, through you, the personnel in the Domestic Intelligence Division who assisted in such a competent and effective fashion in handling the exceedingly large number of Bureau tours during the past Easter Season.

These men discharged their duties with much skill and enthusiasm and despite the multitude of visitors the tours were conducted in such a manner that much credit has come to the Bureau. I want you to convey my sincere appreciation to all the tour leaders in your division who helped with this record-breaking influx of people desiring to view our operations.

Sincerely yours,

J. Edgar Hoover

SUBJECT: INQUIRY FROM GOVERNOR TERRY SANFORD,  
RALEIGH, NORTH CAROLINA, REGARDING  
COMMUNIST PARTY MEMBERS OR SYMPATHIZERS

WILLIAM C. SULLIVAN

Reference is made to the enclosed airtel dated March 13, 1964. To me this is a very serious matter not alone because of the trouble which it can cause through the passing of information to Governor Terry Sanford which should not have been passed but because the truth has not been established in this matter.

Let us take a cold look at some facts. There has been an official memorandum in our files since last December, dictated at the time the question came up. It contains specifically the exact and clear instructions given to Charlotte. Prior to the giving of these instructions I talked the entire matter over with Section Chief Fred J. Baumgardner, and he was at my desk when the instructions were given. We both agreed that no politician can be trusted and that, therefore, as our files show, "We cannot comply with his request." As Charlotte had made it clear that immediate action was required we telephoned that office and talked to ASAC Robert L. Walters. He was told that we could not comply with Governor Sanford's request; however, the matter should be handled courteously so that the Governor would be satisfied that we weren't brushing him off. ASAC Walters was told should they have any current public source information unknown to us relating to the Governor's request in their files, it should be brought to the Bureau's attention together with a recommendation from the Charlotte Office as to whether or not the information could be furnished to Governor Sanford. Lastly, Walters was told that either he or SAC Joseph L. Kissiah should personally contact Governor Sanford in this matter and explain to him the confidential nature of the Bureau files. These are the facts and any other statements relating to the instructions given are false. These instructions will be found in the enclosed copy of the memorandum in question.

In the enclosed airtel Charlotte attacks and tries to belittle the importance of public source material in this instance. As we know, quite regularly we do offer public source material to people when it is explained to them that we can't give them anything of a confidential nature. Public source material is available to the Bureau when quite

Memorandum for Mr. Belmont  
RE: INQUIRY FROM GOVERNOR TERRY SANFORD,

often it is not available to other people. For example, I have a memorandum going through channels now recommending we give some public source material to a professor at Harvard University relating to communists who have sought public office. This apparently was unavailable to the professor. We have in the past, where the situation warranted, pointed out public source data which could be checked and used by the person to whom it was given, thereby removing us from the picture. Had Governor Sanford been referred to any available relevant public source material as instructed, we would not have this mess on our hands today.

Also, it is to be noted that we get approval before any public source material is given out and certainly we are not giving out any classified information, no matter how unusual the circumstances, unless it is called to the attention of the Director for his decision. As Charlotte never did submit any public source material for an evaluation and recommendation, we never again heard from this office until the difficulty arose a few days ago.

In the interest of accuracy, it is to be noted that the two Agents who talked to Governor Sanford are not in agreement as to what they told him. One said the Governor was told "There are no known Communist Party members" and the other said "There are no known communists" presently on the faculty of any state-supported college in North Carolina. Now, I don't think the Agents should be blamed for this because they are criminal investigating men and wouldn't be aware of the importance of the distinction between these two statements. We know here at the Bureau, of course, that there are non-Party communists and that these are the ones who are more likely to be in colleges and universities. It does raise a question, however, as to just what instructions SAC Kissiah gave these two Agents concerning information to be conveyed to Governor Sanford.

I don't think we should let this matter drop. In view of this, I think that the Inspection Division should look into this entire matter and try to pin it down, and disciplinary action should be taken against anyone involved who either advertently or inadvertently didn't either give or get the facts straight.

*William C. Sullivan*

ReBuairtel 3/11/64, in which formal explanations were requested by me and ASAC ROBERT L. WALTERS.

Attached is a self-explanatory memorandum submitted by ASAC WALTERS and a copy of Charlotte memorandum confirming the instructions issued by Mr. SULLIVAN as recorded by ASAC WALTERS.

In order to summarize this matter as accurately as possible I am also attaching a copy of Governor SANFORD's letter to me dated December 6, 1963, but received in the Charlotte Office December 11, 1963; a copy of my reply to Governor SANFORD dated December 11, 1963; and a copy of my airtel to the Bureau dated December 11, 1963, attention, Assistant Director WILLIAM C. SULLIVAN.

Immediately upon receiving Governor SANFORD's letter and realizing the possible importance of this inquiry, I called Assistant Director SULLIVAN and, as indicated in my airtel to the Bureau 12/11/63, forwarded SANFORD's letter to the Bureau with the suggestion that his letter be answered directly from the Bureau as soon as possible. I felt this was the best way to handle it and would leave no possible misinterpretation on the part of Governor SANFORD or the Charlotte Office.

Assistant Director SULLIVAN's telephone call to ASAC WALTERS followed on 12/13/63, as indicated in the attached copy of ASAC WALTERS' memorandum to me 12/16/63. ASAC WALTERS made extensive notes on this conversation and tells me that Mr. SULLIVAN cleared the statement about no Communist Party members on faculties of state-supported institutions, but the matter of "public source data" was not mentioned. Further, that it was not specifically instructed by Mr. SULLIVAN that ASAC WALTERS or I personally discuss this matter with Governor SANFORD. If the matter of "public source data" had arisen in the conversation between Mr. SULLIVAN and ASAC WALTERS, ASAC WALTERS tells me he would definitely have questioned that point since Governor SANFORD did not ask us for public source information but in fact had asked us if we had any evidence that any faculty member of any of our state-supported colleges or the University are members of the Communist Party or are communist sympathizers.

In the absence of specific direction by Mr. SULLIVAN to the effect that ASAC WALTERS or I should personally talk to Governor SANFORD and convey this very short message, I nevertheless on 12/16/63, endeavored to call him and tell him orally of the information which Mr. SULLIVAN approved, but he was out of the office and was not expected to return until a later date. I immediately instructed Senior Resident Agent (SRA) DAVID W. WATSON to contact the office of Governor SANFORD, with whom he is personally acquainted, but SRA WATSON determined on 12/19/63, that the Governor was out of town and would not return for several days. Arrangements were made with his Administrative Assistant to have SRA WATSON notified when SANFORD would be available for contact.

In order to make sure there was no misunderstanding, Governor SANFORD was personally contacted by SRA DAVID W. WATSON and Alternate Senior Resident Agent (ASRA) [redacted] of the Raleigh Resident Agency on January 7, 1964,

and these Agents gave Governor SANFORD only that statement which had been cleared for dissemination by Assistant Director SULLIVAN. It is unthinkable that our Agents would have made any further statements to Governor SANFORD of the type which he has attributed to us since news media have constantly reported in North Carolina the activities of various people at state-supported institutions who are to say the least somewhat sympathetic towards leftist lines.

As indicated in my teletype to the Bureau, 3/10/64, the information cleared by Mr. SULLIVAN was personally conveyed to Governor SANFORD as soon as he became available on a highly confidential basis. When I said it was conveyed personally, I intended to convey it was a personal confrontation of Governor SANFORD by Bureau personnel and was not done in a written communication. As indicated above, I did try to contact Governor SANFORD personally but he was unavailable.

As I further indicated in my teletype to the Bureau, 3/10/64, Governor SANFORD's statement far exceeded that information given to him by the Bureau and violated the confidence we imposed on him at the time information was conveyed to him that no faculty members of any state-supported institution was known to be a member of the Communist Party. There are definite political ramifications in this matter as spelled out in my teletype to the Bureau and Governor SANFORD has very obviously distorted and built up the simple statement we gave to him for the political gain of his own administration, as well as apparently the candidacy of former Federal Judge L. RICHARDSON PREYER, who reportedly enjoys the support of the SANFORD political machine.

ASAC WALTERS and I regret that Governor SANFORD has flagrantly abused the confidence imposed on him by the Bureau for political gain. After all, Governor SANFORD is a former FBI Agent, has been most complimentary of the Director and has been most cordial to the Charlotte Office and his misinterpretation and distortion of this matter is difficult to understand.

It is my feeling, however, that as Governor SANFORD pointed out in his letter to me 12/6/63, he perhaps had a legitimate interest in knowing whether any faculty members were Communist Party members or sympathizers since he pointed out that North Carolina has a statute which makes this unlawful. I feel therefore that Assistant Director SULLIVAN's approval of our limited statement to Governor SANFORD was perhaps in order, but that unfortunately Governor SANFORD violated the confidential restriction we placed on him.

We respectfully submit that the matter of public source data was not even mentioned by Mr. SULLIVAN to ASAC WALTERS as such information concerning activities of faculty members is as available to SANFORD as to us.

As the information was passed on to Governor SANFORD by SRA DAVID W. WATSON and ASRA [REDACTED] I am also submitting statements from these Agents as enclosures to this airtel.

I see no dereliction on the part of ASAC WALTERS or these Agents and it is recommended no administrative action be taken.

become involved in this  
mess.*

Dear [Redacted]:

Please refer to your letter to me of February 10, 1964, charging that William C. Sullivan, an Assistant Director, replied "Yes" to the question, "if Communists should be allowed to speak on the campuses."

REC-6

62-109257-3

I wish to advise you that Mr. Sullivan at no time in all the years he has been lecturing has ever replied "Yes" to the question, "Should communists be allowed to speak on the campuses." As a matter of fact, when this question has come up he has clearly explained the ulterior motives that the communists do have in wishing to speak on college campuses and the disadvantages which follow permitting them to do so.

MAR 30 1964

Sincerely yours,

John Edgar Hoover  
Director

Dear Mr. Hoover, If I hadn't heard the above with my own ears, I too would never have believed it. Mr. Sullivan did not say anything after answering "YES" to should Communists be allowed to speak on the campuses. Mr. Sullivan explained nothing. As the program went off the air, so Mr. Sullivan made on the [unclear] YES.

This woman is a liar. The question was never asked. If it had been I would have answered "No". The film has been reviewed. The transcript is in the files. See no need of any action on this letter. WAS 3-26-64

Dear Mr. Sullivan:

I have reviewed the results of an official inquiry into the handling of a request received by the Charlotte Division in December, 1963, from the Governor of the State of North Carolina for certain information and it is clear to me that you completely failed to fulfill your responsibilities in this instance. You were derelict in not insuring that you were aware of all the information in the Bureau's files pertinent to the matter in question before taking action and you were also at fault in not having submitted a memorandum with recommendations for my approval before the matter was decided. The results of these shortcomings on your part have been most serious.

In the future, it will be necessary for you to demonstrate better judgment in situations of this nature in order that the Bureau's interests may be properly protected at all times.

There is attached an Outstanding annual performance report for Mr. Sullivan which was previously signed by you and the Director. This memorandum is to recommend an appropriate cash award for Mr. Sullivan which will be forwarded to him after the rating has been approved by the Departmental Committee on Incentive Awards.

It is noted that Mr. Sullivan was censured on 12-13-63 for over-all responsibility in connection with deficiencies in handling of the Oswald case prior to the assassination of President Kennedy. He is also being censured under date of 4-20-64 in connection with the controversy involving Governor Terry Sanford of North Carolina and Communist Party members and sympathizers in State supported schools. On the other hand, the Bureau's accomplishments in those matters directed out of Mr. Sullivan's division during the past year have been substantial and it appears that he is deserving of this Outstanding rating and a cash award of \$500 as has already been approved for other Assistant Directors.

## RECOMMENDATION:

That the attached Outstanding rating for Mr. Sullivan be approved and that it be forwarded to the Department in the next group so transmitted for approval by the Departmental Committee on Incentive Awards. He will then be given a copy of his rating and an incentive award of \$500.

**WILLIAM C. SULLIVAN  
ASSISTANT DIRECTOR  
DOMESTIC INTELLIGENCE DIVISION**

Mr. Sullivan is the Assistant Director in charge of the Domestic Intelligence Division and is responsible for all matters relating to internal security, espionage, counter-espionage, subversive controls and nationalities intelligence. For the period April 1, 1963, to March 31, 1964, his performance has been so exceptional as to merit an Outstanding rating.

Mr. Sullivan presents a substantial, mature appearance and has a pleasing, yet forceful, personality which makes him most effective in his liaison with top-level Government officials. His boundless enthusiasm, unusual drive and determination and his vast knowledge of the Bureau's operations have materially contributed to his superior services.

During the past year due to the acute international situation the obligations of the Bureau were heavy and Mr. Sullivan greatly shared in this increased volume of work. He meticulously and judiciously carried out his duties, giving inspirational leadership and astute guidance to his subordinates. He has consistently and clearly demonstrated that he is entirely capable of directing the activities of his division, which have an important bearing on the success of the Bureau's undertakings. He has displayed remarkable judgment and is ever alert to protect the Bureau's best interests. An eloquent speaker and lecturer, he has ably represented the Director and the FBI on many occasions, immeasurably enhancing our prestige.

Mr. Sullivan through his accomplishments has proved his value to the Federal Bureau of Investigation and his contributions certainly justify this Outstanding rating.

**CONTROVERSY REGARDING GOVERNOR TERRY SANFORD  
(NORTH CAROLINA) QUOTING FBI AS SAYING NO COMMUNIST  
PARTY MEMBERS OR SYMPATHIZERS IN STATE-SUPPORTED  
SCHOOLS OF NORTH CAROLINA**

On Director's instructions I made inquiry at Charlotte and Seat of Government (SOG) re background of statement by North Carolina Governor Sanford, 'The FBI recently reported to me that there is not one single communist or communist sympathizer on any faculty nor a communist sympathizer in any student body of any state-supported university or college in North Carolina.' Summary and recommendations follow.

By letter 12-6-63 to SAC Missiah, Governor Sanford said, "I would appreciate knowing if you have any evidence that any faculty member of any of our state-supported colleges or the university are members of the Communist Party or are communist sympathizers. We have a statute which makes this unlawful. As Chairman of the Board of Trustees of the University of North Carolina, and the appointing authority for the Boards of the Colleges, I feel it is necessary for me to make this inquiry." Missiah received letter at Charlotte 12-11-63, made no supplemental inquiry to ascertain what prompted Governor's request or his intended use of information, despite SAC's knowledge that one of the "hottest" political controversies in Charlotte was raging over a 1963 act prohibiting state-supported colleges and universities from permitting any person to teach who is known Communist Party member, or is known to advocate overthrow of U.S. or North Carolina Constitutions or who has pleaded Fifth Amendment on being questioned regarding such sympathies. Act known as "Teacher Ban Law" and responsibility for enforcement is on Board of Trustees or other governing authorities of such institutions. Governor Sanford was embroiled in heated political campaign involving three-way fight among prominent Democrats seeking nomination to succeed Sanford and Sanford was knowingly supporting candidate who favored repeal of "Teacher Ban Law." SAC Missiah telephoned Assistant <sup>letter</sup> Director Sullivan 12-11-63 to advise him of Sanford's inquiry and thereafter forwarded by cover airtel same date to Mr. Sullivan with request Sanford's letter be answered directly from Bureau as soon as possible. Airtel stated "No known Communist Party members in these institutions in which the Governor is interested, but there have been in the past indications that some individuals have either been members of communist front groups, or as in the case of [redacted] might have even been members of the Communist Party." Missiah explains he did not alert

Memorandum to Mr. Gale

Re: Controversy re Governor Terry Sanford's Statement noting FBI

Mr. Sullivan to political heat over 'Teacher Ban Law' because Sullivan should have been fully aware inasmuch as Charlotte had furnished much information to Bureau previously re this matter, nor did he alert Sullivan to rumors received in past indicating Sanford being considered to succeed Director.

Charlotte file reflects memo 12/16/63 by ASAC Robert L. Walters reporting telephone call from Sullivan 8:00 PM, Friday, 12/13/63, who stated in view of "good will" existing with Governor Sanford information should be passed on to him that "Bureau records contain no members of the Communist Party presently teaching in North Carolina educational institutions"; that Governor should be cautioned Bureau files confidential and any information given him should be treated confidentially; further that Governor could be advised Bureau would pass along on confidential basis any information of this nature obtained in future. Sullivan states he received Governor's letter Friday, 12/13/63 (time stamp confirms received Domestic Intelligence Division 12:01 PM and Sullivan's office 12:29 PM, 12/13/63); immediately assigned it to Section Chief Baumgardner. Baumgardner had Supervisor E. B. Reddy draft proposed letter to Sanford per established policy advising files confidential and information could not be furnished by Governor not to draw inference therefrom. Reddy in interest of expedite handling did not make indices check on Sanford but had Personnel Records in Justice Building check his out of service file and clerk there phoned him review of file showed last communication with Sanford cordial. (Sanford's personnel file does reflect cordial correspondence but also contains references to reported rumors that Sanford would become Director's replacement. Also a letter from Sanford 7/26/63 asking Director's comments concerning "Teacher Ban Law" and Sanford expressed belief that such legislation would adversely affect freedom of speech and do more harm than good. Director's reply of 7/30/63 declined comment since matter concerned legislation but did tell Sanford of Director's opposition to communists spreading evil propaganda before student groups.) Reddy also checked Crime Records Division and confirmed fact Sanford was on Special Correspondents' list and concluded therefrom relations cordial. Security Index also checked re N. C. teachers. Baumgardner states he hand-carried proposed draft of negative response letter and handed it to Sullivan who in Baumgardner's presence phoned Charlotte Office and with draft of letter before him issued instructions to individual whom Sullivan, at termination of call, identified to Baumgardner as ASAC Walters. Baumgardner confirms hearing Sullivan definitely instruct either SAC or ASAC contact Governor; to handle matter in such way Governor would not feel being "brushed off" but plainly told Walters Bureau could not comply with Governor's request for confidential information from files; also Sullivan asked Walters re availability of public source material for furnishing Governor and instructed if such material existed Bureau to be advised. Sullivan dictated memorandum (Sullivan to Baumgardner dated 12/17/63), initialed for file by Sullivan and Records Branch stamp shows receipt there 12/19/63. Memo supports Sullivan's and Baumgardner's versions and Baumgardner states his initials at time of review reflect full concurrence with facts therein. Proposed letter to Sanford destroyed in view of telephonic handling. stenographic notes destroyed after 30 days. Walters advised Inspector he recalled no reference to public source data.

Memo to Mr. Gale

Re: Controversy re Governor Terry Sanford's Statement Quoting FBI

Sullivan explained he handled matter by phone call to avoid any further delay in acknowledging letter; that since Governor's letter was addressed to Kissiah, Sullivan felt personal contact acknowledgement by Charlotte would be adequate; and since no positive action was recommended and none to be taken memo was dictated only for record purposes and initialed for file by Sullivan. Sullivan states at time he handled matter he had no information in his possession indicating relations with Sanford anything other than cordial and he had never previously heard any derogatory data re Sanford; and SAC Kissiah in phone call to Sullivan emphasized Sanford's friendship with Charlotte Office.

On 12-16-63 SAC Kissiah received ASAC Walters' memo of phone call from Sullivan, unsuccessfully tried to contact Governor Sanford to pass along information Walters claimed Sullivan cleared. Governor unavailable and since his office could not say when he would be available, Kissiah on 12-17-63 sent instructions and necessary background material to Senior Resident Agent (SRA) David W. Watson at Raleigh with request he or Alternate Senior Resident Agent (ASRA) [ ] handle contact. Subsequently, SAC Kissiah amended instructions to Watson by telling Watson to have [ ] accompany him on contact since [ ] handles security matters in Raleigh. Earliest date Governor available was 1-7-64 and Watson and [ ] jointly contacted Governor in his office, both advise no one with Governor during interview. Watson claims he furnished Governor only limited information as cleared by Sullivan that Bufiles reflected no known Communist Party members on faculty of any state-supported college or university in N.C.; that should the Bureau learn in future any such information he would be advised; that he reminded Governor of confidential nature of Bureau files and that information given him was on confidential basis. [ ] confirms. Both state that during entire interview with Governor which they estimated (and Daily Reports confirm) lasted about 15 minutes no one made any reference to "communist sympathizers." Governor made specific inquiry concerning Progressive Labor Club at university and [ ] informed him that Chapel Hill where university located is covered by resident agency at Durham and neither Watson nor [ ] could furnish information re that group. Governor also mentioned that students from university had visited Cuba during 1963 Christmas recess and felt they should be prosecuted. Watson and [ ] claim they made no comment to this. [ ] said the Governor volunteered that he had requested information in the 12-6-63 letter because as Chairman of the Board of Trustees of the university it was his responsibility to enforce the "Teacher Ban Law." Watson and [ ] state Governor seemed satisfied, took no notes during interview; [ ] submitted no report of his participation in handling contact and Watson merely submitted a brief memo to SAC 1-8-64 stating he and [ ] contacted Governor 1-7-64 and "at the time Governor Sanford advised on occasion (he) is asked what's being done with respect to communism in North Carolina. He stated he always told the inquiring person that he was leaving that to Mr. Hoover and the FBI as they were doing such a good job. Governor Sanford was informed confidentially as cleared by Bureau that there were no known current members of the Communist Party presently on the faculty of any state-supported school in North Carolina." [ ] claims he did not see this report. SAC submitted no report to Bureau confirming contact.

Memo to Mr. Gale

Re: Controversy re Governor Terry Sanford's Statement Quoting FBI

Watson and [ ] are somewhat at odds regarding facts pertaining to preparation for handling contact. Watson claims that after he advised [ ] to accompany him on contact both agents read the pertinent serials forwarded by SAC. [ ] claims he did not see any of the background information.

On Saturday 3-7-64 Governor Sanford spoke to North Carolina Junior Chamber of Commerce at Raleigh and his remarks included this statement: "The FBI recently reported to me that there is not one single communist or communist sympathizer on any faculty, nor a communist sympathizer in any student body, of any state-supported university or college in North Carolina." Watson and [ ] recall seeing this statement in a news item in the local press Monday morning 3-9-64 in the resident agency office. They discussed it, both agreed it was a violation of confidence and a flagrant distortion and unwarranted extension of the limited information they had furnished the Governor 1-7-64. However, they merely decided the news item should be forwarded to the SAC and [ ] claims the responsibility for doing this was left to SRA Watson. Watson did not submit any cover memorandum with the news item but seemed to recall discussing the speech with the SAC or some supervisor at Charlotte during the day. SAC Kissiah states the Governor's speech first came to his attention in a small Associated Press item in the Charlotte paper 3-9-64, claims he telephoned Watson and instructed him to submit all publicity to him for transmittal to the SOG; that he asked Watson wherein the Governor's statement was at odds with what Watson and [ ] advised the Governor but did not instruct Watson or [ ] to submit any memoranda. Kissiah merely transmitted the news items to the Bureau without any cover communication alerting the SOG to the falsity and distortion. He claims he considered alerting the Bureau but felt since the release was on the Associated Press service the Bureau would be able to immediately identify any inquiry with the restricted information which Mr. Sullivan had authorized giving the Governor and the distortion would speak for itself. b6

On the afternoon of 3-10-64 SAC Kissiah did receive telephonic inquiry from Mr. Wick and for the first time SAC Kissiah advised Crime Records Division of the background and on Wick's instructions submitted a summary teletype showing complete background. SAC Kissiah also stated he gave consideration to feasibility of recommending Bureau issue a counterstatement refuting the Governor or of requesting Bureau authority to confront Governor and straighten him out but Kissiah felt in view of Governor's political motivation best course would be "no comment."

Later on afternoon of 3-10-64 Kissiah states he was en route to a speech commitment when he received a message via car radio to call Washington. On returning call he said Mr. Sullivan referred to the same matter Wick had called him on and desired background information. Kissiah had Charlotte desk Supervisor Richard L. Kesler review file and phone Sullivan. Kesler's memo in Charlotte file dated 3-11-64 reports he phoned Sullivan 5:00 p.m. 3-10-64 per Sullivan's request and furnished him "complete background information concerning" matter. His memo states Assistant Director Sullivan "was particularly interested in exact information furnished Governor Sanford and he was advised from a review of the files that the information had been limited to that approved by him to be furnished Governor Sanford, namely that there were no known current members of the Communist Party presently on the faculty of any state-supported school

Memo to Mr. Gale

in N. C."; further his memorandum states "Assistant Director Sullivan stated that he appreciated the information and that he feels that Governor Sanford had not only broken a confidence since the information had been furnished to him on a strictly confidential basis but had also made statements inconsistent with and in addition to information actually furnished him by the FBI. He stated that from this experience it appears that Governor Sanford cannot be trusted in the future with confidential information." Mr. Sullivan advises he has no recollection of the details of his discussion with Kesler. All he recalls is that Kesler advised him SAC Kissiah was out of the office but he thought he could be reached and Kesler told Sullivan in answer to Sullivan's inquiry that he didn't have any knowledge of the matter in question. Apparently this was the first phone call Sullivan made to reach Kissiah. Sullivan cannot recall the details of Kesler's return call but he feels certain he did not either agree with or passively admit the information which Kesler's memo reports he had authorized Charlotte to furnish the Governor. Sullivan states he made no record of the conversation with Kesler.

Numerous inquiries thereafter received by Bureau from various sources in North Carolina requesting Director to confirm Governor's statement. Many were answered "no comment," and subsequently some were answered by advising Bureau files are confidential but assuring the writer that since FBI has not investigated state-supported schools and colleges in North Carolina it would obviously be impossible for Bureau to make any authoritative blanket statement regarding the existence of communists or communist sympathizers in these educational institutions.

On Saturday 3-28-64 ASRA at Raleigh ( ) - SRA Watson was out of town for weekend) received phone call from Governor's Administrative Assistant stating Governor requested agent contact him that evening. Reason for request not indicated. ( ) immediately telephoned Kissiah who advised him of phone call earlier that day from Governor wherein Governor informed him that a political opponent ( ) one of the 3 candidates for nomination as Governor and a strong opponent of the candidate Governor Sanford was backing) had called a press conference and labeled Governor a liar based on a letter which ( ) had received from Bureau in answer to ( ) request for confirmation or denial of Governor Sanford's alleged information from FBI. SAC told Sanford he could make no comment. SAC told ( ) to comply with Governor's request to see him but to be on his guard. SAC considered but rejected feasibility of having another agent accompany ( ) Rough draft memo in Charlotte file dated 3-31-64 from ( ) to SAC reports he contacted Governor at Mansion 9:30 p. m. 3-28-64, that 2 members of Governor's staff were present during meeting (former Bureau clerk ( ) North Carolina Prison Department, and ( ) ). Governor referred to ( ) letter, said it contradicted information given Governor by FBI and placed Governor in very unfavorable position. Governor said his statement to the Junior Chamber of Commerce had been given "off hand" and Governor thought Bureau would appreciate people knowing FBI was alert to and on top of communism. ( ) told Governor information had been furnished him on confidential basis and his having revealed it was not appreciated by FBI, also that Governor had claimed the FBI report showed no communist sympathizers and no such statement had been made to Governor in meeting

Memo to Mr. Gale

Re: Controversy re Governor Terry Sanford's Statement Quoting FBI

1-7-64. Governor asked what the Bureau's next move might be to straighten things out and [ ] told him he would communicate with SAC concerning matter. Governor referred to recent meeting with Director at White House, claimed he and Director on friendly terms, reminded [ ] he has supported FBI in every way and admires Director's stand against communism, indicated he might call Director with intention of having Director clarify Bureau's position and support the Governor's statement "at least to effect there are no Communist Party members on the faculty of any state-supported colleges and universities."

In my interview with [ ] I asked him what, if any, reaction the Governor had evidenced when [ ] told the Governor no such statements as alleged had been given the Governor 1-7-64. [ ] said the Governor claimed "he distinctly remembered that he had told him there were no communist sympathizers at any state-supported institutions because he had made the statement at that time that it was the first time in his recollection that there were no communists or communist sympathizers at any institution of learning in North Carolina." [ ] said he again told the Governor no such statement had been made and the Governor again replied he distinctly remembered having been told that. [ ] was asked why he didn't thereupon call the Governor a liar and terminate the discussion. He said he considered taking a more forceful attitude but realizing the Governor was on record publicly as having made the statement and that 2 of his assistants were present during the 3-28-64 discussion he felt the Governor would not make any admission of error and saw no benefit in further aggravating the situation. [ ] was asked why he didn't report the Governor's reaction in his memo and he said he had no valid excuse but claimed that the omission wasn't deliberate. SAC Missiah who received a telephonic summary of the results of this interview after it terminated on the night of 3-28-64 and thereafter submitted a teletype summary to the Bureau claims [ ] did not make any mention to him of the Governor's persistence in maintaining that the Bureau had furnished him the information as alleged. b6

Governor Sanford wrote a letter 3-31-64 to Attorney General Kennedy stating his integrity is in question and indicating he desires the Director write him a letter confirming that his statement to the Junior Chamber of Commerce was justified by the FBI report given him. In his letter he claims to have received a call from Resident Agent [ ] who advised him that the Director had asked [ ] to convey to him "a negative reply to my letter" (i.e., his letter 12-6-63 to SAC Missiah) that he did not receive a written reply. [ ] denies this and claims the contact with the Governor to set up the appointment for 1-7-64 was made by SRA Watson. Watson confirms and claims he furnished no information to the Governor over the phone but waited until he and [ ] personally saw the Governor in his office.

Sanford's letter also goes on to mention the appointment of 1-7-64 and states, "when they came (referring to Watson and [ ]), we talked about several things, and in response to my direct questions they advised me (1) that no faculty members were communist sympathizers, (2) that there were no known communists or communist sympathizers in the student body, and (3) there were no Castro sympathizers in any student body or faculty. This additional information, which I assumed and assume

Memo to Mr. Gale

Re: Controversy re Governor Terry Sanford's Statement (quoting FBI)

could not possibly be restricted or classified since it is negative, was interesting and I naturally thought it was authorized. . . ." Further, the Governor states, "I did not misunderstand any part of the briefing given at my office, which was heard by Mr. [ ] my Administrative Assistant. Furthermore, on last Saturday night I asked the agent to come by and he confirmed the facts as I have reported them. This was done in the presence of Mr. [ ] and Mr. [ ] former Special Agent of the FBI."

As previously reported herein, [ ] and Watson categorically state the Governor was alone during their interview with him on 1-7-64. They say [ ] was in his own office off the Reception Room and never came into the Governor's Office during the interview. Both agents categorically deny that the Governor asked questions as he alleges. The only direct question the Governor put to the agents concerned the Progressive Labor Club at the university of North Carolina which Agent [ ] answered by stating this matter was in another resident agency. Both agents state the Governor could not possibly have assumed that the information they gave him was not confidential because they had stressed the fact it was. Regarding the Governor's reference to the Saturday night meeting with Agent [ ] [ ] denies having confirmed the facts as the Governor reported them and insists he informed the Governor that no such information regarding communist sympathizers had been given him. [ ] also points out that the Governor is wrong in referring to [ ] as a former Agent because [ ] knows [ ] as a former clerk who left the Bureau under circumstances other than favorable. This, however, did not come up in the conversation.

SAC Kissiah and ASAC Walters were advised by me on the specific request of Mr. DeLoach that Mr. DeLoach had told them 4-8-64 that no personnel in the Charlotte Division were to thereafter have any contact with Sanford as long as he remains Governor; further that in the event any circumstance arose which appeared to indicate the need for a contact the matter should be referred to the Bureau for prior decision. Both of these men indicated they fully understood and would abide by these instructions.

RE: WILLIAM C. SULLIVAN  
Special Agent - FBI

Dear Dr. [redacted]:

I am attaching the most recent Naval physical examination on Mr. Sullivan, dated March 24, 1950, which certifies him for arduous exertion and lists no disqualifying defects. The electrocardiogram was normal.

I am wondering if it would be possible for you to afford Mr. Sullivan a special consultation with a view to authorizing some special examinations for him, including possibly a gastro-intestinal series and possibly a check for gall bladder trouble, and anything else you might feel is warranted.

I happen to know that Mr. Sullivan either has active stomach ulcers at this time, or at least he has been undergoing considerable difficulty in the last several weeks, and I believe he has placed himself on a diet consisting almost entirely of baby food.

Mr. Sullivan also has developed a rather pronounced nervous twitch, the cause of which I do not know.

Mr. Sullivan leads a very busy life in the Bureau, and is subject to considerable pressure and long hours, and it is my personal feeling that he subordinates his own health many times to official interests, and my main concern is that he may be developing conditions which we should check if possible before they have advanced too far.

DU(Fever, Etiology Unknown) #7955

11-1-54 Diagnosis changed this date by reason of estab-  
lished to: Bronchitis, Chronic, Organism Undeter-  
mined. #4311

SUMMARY: This 41 year old FBI man was admitted with a 48  
hour history of productive cough, fever and malaise. He had  
a proximately a two year history of recurrent, mild pulmonary  
infections and chronic asthmatic bronchitis, following an  
original acute pneumonia. He had also had an episode of pneu-  
monia in 1946.

Physical examination on admission revealed him to be coughing  
frequently, and he did have fine moist rales in both lung  
fields, but the examination was otherwise negative.

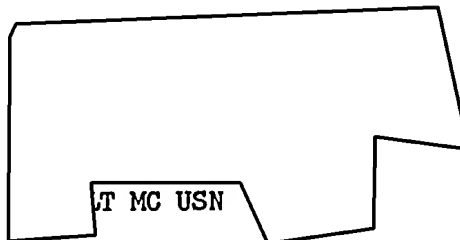

Routine laboratory studies including chest x-ray were not re-  
markable. The patient ran an afebrile course, with his symptoms  
fairly rapidly responding to terramycin and potassium iodide,  
and will be discharged to duty, still on terramycin, to be follow-  
ed at the chest clinic at this activity.

Preliminary Report  
May 1953

Allergy consultation continued:

SULLIVAN, WILLIAM C.

IMPRESSION: On routine intradermal skin testing this patient was found to react in a moderate manner to mixed grasses up to dilutions of .1u/cc. Also to mixed ragweed up to dilutions of 10u/cc. Reacted to the following molds in marked manner: alternaria, minillia, helminthosporium. The following non-seasonal inhalants showed definite positive reactions: feathers, wool, tobacco, oat op., kapok.

- WBC - 4,650
- Neutrophiles - 19%
- Lymphocytes - 41%
- Monocytes - 5%
- Eosinophiles - 4%
- Basophiles - 1%
- Hemoglobin - 103% or 15 Gms
- Sed. rate - 3mm 60 minutes

It is somewhat difficult to correlate the significance of the positive skin tests in this patient's symptomatology. He gives a rather vague history of a non-seasonal coryza and episodes of intermittent congestion in the chest with the expectoration of large amounts of mucoid material. This last episode of chest congestion and a general feeling of lethargy malaise, some depression, and irritability, have undoubtedly been due to overwork, mental as well as physical fatigue. I feel that the general well being of the patient had fallen to a low ebb which stimulated the onset of his allergic symptomatology making the chest condition more bothersome and more prominent. After two weeks of rest the patient states at this time that he is feeling well as far as his physical condition is concerned and the chest congestion at present seems to be the most bothersome complaint. He states that if the chest was not congested he would be feeling at peak conditions. I feel perhaps that infection is playing a complicating role in the findings and that treatment of such by the administration of gantrisin should bring about fairly good results in conjunction with medication to decrease the amount of congestion present in his chest. He has therefore first been given instructions on the avoidance and elimination of all those non-seasonal inhalants to which he was found to react in a positive manner. This should be of great help if followed as put forth. He has also been given a prescription for aminophylline and potassium iodide capsules to be taken two to three times a day after meals. In conjunction with this he will be taking gantrisin and visyneral vitamin tablets. To report back to this clinic in one week in order to evaluate the therapeutic result.

**Allergy consultation:**

**CC:** Perennial allergic rhinitis: 12 years.

**PI:** This 38 year old M. calls a visit to his local doctor 12 years ago for nasal symptoms which were diagnosed as "catarrh". He occupies a house in Hatcherburg, his home which is at the foothill of the Blue Ridge mountains. Since leaving home 10 years ago to work for the FBI, he has not had a very gradual increase in his symptoms to the point where they are very annoying and sometimes severe enough to require a few days' hospitalization. They consist of intermittent nasal stuffiness, bouts of sneezing, post nasal drip with pharyngeal irritation, nasal itching and even severe headache with marked exacerbations. Asthmatic symptoms, consisting of cough productive of watery mucous, wheezing and subcostal tightness sometimes follow a nasal episode, but the chest symptoms are rather minor compared to his head symptoms. The following general pattern of occurrence has been observed: daily flare-up from 0400 to dawn with ill defined biseasonal exacerbations in mid spring and fall (mid-August to November), aggravation by changeable (damp) weather, worse in river valleys and seacoasts, worse in old damp houses and Pullman sleepers. He is definitely improved in the American Southwest, on sea-voyages and after heavy rainstorms. Specific incrimination of period of falling barometric pressure, to presence of mildew or musty odors can not be made. Specific antigens such as animals, cosmetics, items of furniture, items of clothing, particular rooms of a house, odors, etc can not be incriminated. House dust will cause a transient allergic rhinitis, presumably insufficient to account for his usual symptoms. Last August 15th to October 15th is the only seasonal symptoms corresponding to ragweed anthesis. However, the severity of his symptoms did not follow the concentration of ragweed pollen. He was worse during the first of those two months. There has been only one definite superimposed upper respiratory infection. Numerous ENT examinations disclosed a nasal membrane allegedly suggestive of an allergic state.

**SR:** For past two months patient has had periodic dizziness, nausea and lower abdominal pain which is described as of "annoying" intensity. This is relieved by walking followed by rest. No relationship to meals. Stools normal. No stress relationship. Tendency to constipation. No wt. loss. Barium enema taken.

**PHL U.C.D.** Susceptible to upper respiratory infections (2-3/yr) which frequently progress into a "Bronchitis".

**FM:** Mother: "Migrainous" headaches. Maternal grandfather: asthma (type unknown).

Pursuant to your request, I am setting forth the following facts.

An airtel dated December 11, 1963, which we received in this Division December 13, 1963, from the Charlotte Office, forwarded a letter from Governor Terry Sanford to SAC Joseph Kissiah dated December 6, 1963. It was processed in this Division by Supervisor Edward Reddy. He prepared a rough draft reply, pointing out that our files are confidential and we could not meet the Governor's request for evidence of communists or communist sympathizers therein. This rough draft of his letter also pointed out the Governor was not to draw any conclusions of any kind in regard to this statement. Supervisor Reddy had checked with both Personnel and Crime Records and had ascertained that Governor Sanford was on the Special Correspondents List and cordial relations, therefore, prevailed.

Section Chief Fred J. Baumgardner brought this rough draft letter in to me at approximately 6 p.m. on Friday evening, December 13, 1963. The letter dated December 6 was already seven days old. If action hadn't been taken on it Friday evening, it was not likely that a reply would have reached Governor Sanford before Tuesday, December 17, at the earliest, making a total of eleven days since it was written. In view of this, plus the fact that Charlotte requested handling this as "soon as possible," I decided that the most direct and expeditious manner of handling this matter so as not to be charged with delay would be to telephone Charlotte and give them instructions.

Mr. Baumgardner and I had discussed this entire matter and we had agreed that we could not in any way comply with the Governor's request to be given classified or confidential information. As this was a personal letter not to the Director but to Mr. Kissiah and as it is accepted Bureau policy in various instances to have a personal contact made with an important person rather than writing a letter, I proceeded to so handle.

Memorandum for Mr. H. L. Edwards  
RE: INQUIRY FROM GOVERNOR TERRY SANFORD,  
RALEIGH, NORTH CAROLINA,  
CONCERNING COMMUNIST PARTY MEMBERS OR SYMPATHIZERS

Using the letter which Mr. Reddy had prepared, I instructed Charlotte (ASAC R. L. Walters) that either the ASAC or SAC should personally contact Governor Sanford and explain to him the confidential nature of the Bureau's files. In view of the cordial relations said to exist with the Governor, I told Charlotte to do what it could within the limitations set to satisfy and maintain good will. Although reference to field office indices was made in the airtel to be certain I asked Charlotte if they had any public source material which could be considered and the reply was that its office indices had been checked without revealing such data. I told Charlotte that should any public source information come to their attention on this particular subject matter, it should be sent in to the Bureau together with a recommendation as to whether it would be advisable to furnish such material to Governor Sanford. Charlotte advised that this would be done. Charlotte was quite pleased with this arrangement, saying it could be handled without any trouble at all. At no time did either I or Charlotte raise the question of the desirability of giving the Governor any confidential information concerning Communist Party members in state educational institutions of higher learning.

As no positive action was recommended and none was to be taken, a memorandum was dictated for the file which is in keeping with Bureau policy. Only last week I dictated a memorandum to Section Chief W. R. Wannall in the case of [redacted] This is an established procedure which has been done for years. If Charlotte had, the following week or the following month, come in with public source material which it wanted to give to Governor Sanford, then a memorandum would have been sent through channels and a recommendation made as to whether or not it should be given. It is a matter of record that this is the established procedure in this Division and we regularly send through memoranda recommending that public source material be given to different individuals, one of the more recent cases being that of Harvard University professor [redacted] Approval was given to furnish this professor such material. It is to be noted that this Division gets approval to give out public source material and certainly would not recommend giving out classified material without having it approved.

At the time that we handled this matter as described in this Division we were in no possession of any information showing that the relations between the Bureau and Governor Sanford were not cordial. As a matter of fact, I had never heard of the man before and there are a number of governors in this country whom I have never heard of. When SAC Kissiah called in regarding his letter, he repeatedly said that Governor Sanford was an outstanding man, a former Agent whom he knew

personally; that he was a close friend of the Charlotte Office; that he should be given every possible consideration. This, with the check made by Supervisor Reddy, was the extent of my knowledge of Governor Sanford.

Assistant Director C. D. DeLoach called me on March 10, 1964, and said there had been a flare-up in the press in North Carolina in that Governor Sanford had stated publicly that the FBI had advised him there were no known Communist Party members or sympathizers on the faculties of the state colleges and universities in North Carolina. I expressed astonishment to Mr. DeLoach over such a development and asked him who would give out that kind of information to the Governor. He told me that the Charlotte Office had given out the information and attributed it to my authorization. I was even more perplexed and told Mr. DeLoach that I didn't recall any such conversation with the Charlotte Office authorizing the giving out of confidential information. I told him I would pull the file on the matter.

To further get at the root of this surprising development, in a call to the Charlotte Office, I was advised by Supervisor Richard L. Kesler that Mr. Kissiah was out of the office but he thought he could be reached. I asked Mr. Kesler if he had any knowledge of this matter and he said he didn't have any. I noticed that in a memorandum which he has given to Inspector Edwards he attributes statements to me along this same "Charlotte line" relative to my approving material which I did not make to Kesler, and I state this categorically.

Mr. Kissiah got in touch with me and I asked him what it was all about. He told me the basic facts of the matter. I said to Mr. Kissiah that, according to my memory (because at this point I hadn't seen the file), only public source material had been raised as being suitable for giving to the Governor, if available. Mr. Kissiah paused for a long moment and said he didn't seem to recall public source material. As I had not seen the file and I wanted to be sure of my facts, the conversation was terminated. Some days later Mr. Kissiah called me from Charlotte while I was out and Inspector Joseph A. Sizoo took the telephone call and so advised Mr. Kissiah of my absence. He said he wanted to talk to me. I did not return the call to Mr. Kissiah for I saw no reason for further discussion in this matter with him.

Memorandum for Mr. H. L. Edwards  
RE: INQUIRY FROM GOVERNOR TERRY SANFORD,  
RALEIGH, NORTH CAROLINA,  
CONCERNING COMMUNIST PARTY MEMBERS OR SYMPATHIZERS

It seems very strange to me that Charlotte would get these instructions so garbled. It may be due to the fact that the instructions passed through three or four people in Charlotte. Section Chief Fred J. Baumgardner, who was at my desk when I gave them, understood them clearly and fully. I engage in hundreds of telephone conversations a month and a large percentage of them include giving instructions. I have had no difficulty making myself clear. Just recently, because of the sensitivity of the operation, I have been giving quite complicated instructions to the field regarding Martin Luther King, and no problems have arisen.

**CONTROVERSY REGARDING GOVERNOR TERRY SANFORD  
(NORTH CAROLINA) QUOTING FBI AS SAYING NO COMMUNIST  
PARTY MEMBERS OR SYMPATHIZERS IN STATE-SUPPORTED SCHOOLS**

**SYNOPSIS:** On Director's instructions inquiry made at Charlotte and Seat of Government (SOG) based on N. C. Governor Sanford's statement, "The FBI recently reported to me that there is not one single communist or communist sympathizer on any faculty nor a communist sympathizer in any student body of any state-supported university or college in N. C."

Sanford by letter 12-6-63 to SAC Kistiah asked for "any evidence that any faculty member of any of our state-supported colleges or the university are members of the Communist Party or are communist sympathizers." Kistiah called Assistant Director Sullivan 12-11-63 and sent letter to SOG for acknowledgement, did not alert Sullivan to hot local political issue over "Teacher Ban" law claiming information already in SOG files. Sullivan received letter 12-13-63, immediately gave it to Section Chief Baumgardner who assigned it to Supervisor E. B. Reddy. Reddy confirmed Sanford on Special Correspondents' List and concluded relations cordial. He called Personnel Records and was told Sanford's file showed last communication cordial; states time did not warrant personal file check on Sanford. Reddy drafted proposed letter advising Sanford FBI files confidential, hence could not assist him. Baumgardner took draft to Sullivan 12-13-63. To expedite Sullivan telephoned ASAC Walters Charlotte (SAC absent). Sullivan memo 12-17-63 confirmed instructions to ASAC; that he or SAC contact Sanford, explain confidential nature of Bufiles, that Bureau can't comply with request, but in view of past cordial relations handle contact so Governor won't feel "brushed off." Sullivan asked Walters if Charlotte had public source data re teachers and Walters said no; instructed ASAC to submit any future public source data to Bureau with recommendation re confidentially furnishing to Governor. ASAC memo 12/16/63 re Sullivan's call contra to Sullivan's memo; states Sullivan said in view of good will with Governor he should be told no members of Communist Party teaching in N. C. educational institutions per Bureau records; that Bufiles confidential and information so treated; also Bureau would confidentially furnish future information obtained. Walters claims memo accurate. Sullivan insists his memo factual, is confirmed by Baumgardner who was with Sullivan during call. Sullivan states since no positive action recommended and none to be taken he dictated memo only for record and personally initialed for file; that he had no information indicating relations with Sanford other than cordial, never heard derogatory data re Sanford and claimed Kistiah emphasized Sanford's friendship.

On 12-16-63 Kistiah tried to phone Sanford but Governor unavailable and future availability uncertain so he instructed Senior Resident Agent (SRA) David W. Watson, Raleigh, N. C., that he and Alternate Senior Resident Agent (ASRA) [redacted] give Governor information cleared by Sullivan. On 1-7-64 they contacted Sanford who was alone in office. Watson's memo 1-8-64 stated "Governor Sanford was informed confidentially as

cleared by Bureau that there were no known current members of the Communist Party presently on the faculty of any state-supported schools in N. C." Both advised Inspector "communist sympathizers" not mentioned, but Governor asked re Progressive Labor Club at university; said students who visited Cuba should be prosecuted; agents claimed no comment. Watson's memo inadequate in not reporting interview fully; agent offered no excuse. Kissiah did not advise Bureau contact handled. Also [ ] and Watson at variance re preparation for interview, Watson claiming [ ] reviewed all serials SAC sent Watson but [ ] denied seeing any serials before interview.

Sanford in speech 3-7-64 said, "The FBI recently reported to me that there is not one single communist or communist sympathizer on any faculty nor a communist sympathizer in any student body in any state-supported university or college in N. C." Watson and [ ] saw statement in news 3-9-64, agreed Governor violated confidence and flagrantly distorted information but merely forwarded clipping to SAC. SAC noted statement in Charlotte press 3-9-64, phoned Watson and confirmed statement at odds with information furnished Governor; instructed he send all publicity to SAC for SOG. Kissiah sent clippings to SOG without comment and did not alert SOG, saying since release was via Associated Press SOG would have same and since files would show Sullivan had authorized giving Governor limited information distortion would be apparent. On 3-10-64 Inspector [ ] called Kissiah for facts re Governor's statement and told him to submit complete explanation. On 3-23-64 Sanford phoned Kissiah, said he had been labeled a liar based on FBI letter to political opponent stating FBI had not investigated state schools, hence could not make statement re communists or sympathizers in schools. SAC made no comment. Same date Governor's office asked Agent [ ] to see Governor. On SAC's clearance, [ ] saw Governor at mansion, 3 of Governor's staff also present. Governor claimed FBI letter (same one he called Kissiah on) contradicted what agents told him and put him in unfavorable position. [ ] reminded Governor he violated Bureau confidence and distorted facts in that no information given re communist sympathizers. [ ] told Inspector Governor insisted agents gave him information on which statement based but agent failed to include this in reporting meeting. No excuse offered. Sanford wrote Attorney General Kennedy 3-31-64 claiming integrity in question and requesting Director write him letter confirming Governor's statement justified by FBI report given him 1-7-64; Governor claims in 1-7-64 interview that agents answered his direct question to effect (1) no faculty members were communist sympathizers, (2) no known communists or sympathizers in student body, and (3) no Castro sympathizers in student body or faculty. Also claims his Administrative Assistant present during agents' briefing and also that on last Saturday night (3-28-64) agent confirmed facts in presence of 2 members of Governor's staff. Agents categorically deny.

SAC and ASAC both advised Sanford hereafter on "no contact" basis.

RECOMMENDATIONS: 1. SAC Joseph L. Kissiah. Censure and probation for not realizing and alerting Bureau to "political dynamite" in Governor's request; also for not reporting results of contact to Bureau; for not immediately alerting

**Memo to Mr. Gale**

**Re: Controversy with Governor Terry Sanford's Statement Quoting FBI**

**Bureau to Governor's breach of confidence and recommending immediate counteraction.  
(Permanent Brief of SAC Joseph L. Missiah attached.)**

**2. ASAC Robert L. Walters. Severe censure because his memorandum reporting Sullivan's call resulted in furnishing Governor information which got Bureau into this mess. Despite Walters' insistence on correctness of memorandum, fact remains that Section Chief Baumgardner unequivocally corroborates Sullivan's memo showing contrary instructions were given ASAC by Sullivan in Baumgardner's presence.**

**3. Senior Resident Agent David W. Watson. Censure for lack of clear-cut understanding with Alternate Senior Resident Agent Crawford F. Williams re preparation for 1-7-64 interview with Governor and for inadequate reporting of contact.**

**4. Alternate Senior Resident Agent Crawford F. Williams. Severe censure for inadequate preparation for 1-7-64 interview with Governor; also for inadequate reporting of his meeting with Governor 3-28-64.**

**5. Assistant Director W. C. Sullivan. Censure for not assuring himself of pertinent information in Bufiles re Governor Sanford and his request; for failure to adequately evaluate need for submitting memo and appropriate recommendations for prior Bureau approval re handling Governor's request in letter.**

**Memorandum to Mr. Gale**

**Re: Controversy with Governor Terry Sanford's Statement Quoting FBI**

6, Special Agent Supervisor E. B. Reddy. Censure for incomplete file check prior to drafting proposed reply to Governor's request. Although proposed reply declined requested information on basis Bufiles confidential, the fact remains that Reddy's incomplete file check prevented alerting Sullivan to information re Sanford and possible political ramifications of his letter.

7. If recommended action approved, Administrative Division to handle.

NOTE: Above recommendations telephonically discussed with Assistant Director Gale (at Birmingham on special) who agrees with them.

Dear Mr. Hoover:

*WILLIAM C. SULLIVAN*

Thank you very much for your letter of July 17, 1964. I have been giving this racial problem constant thought. Parenthetically, I did what I could yesterday in New York to get that office moving faster and more effectively in this matter.

You asked for suggestions and this is what I now offer you for whatever little value it has.

- (1) After writing you I recommended to the Inspection Division that a study be made relative to whether or not the Domestic Intelligence Division can better handle certain aspects of the Civil Rights-Racial problem. Mr. Gale is very much in favor of this inquiry and is moving promptly in this matter. I think the results of his inquiry will be most helpful in evaluating the situation.
- (2) What I have in mind basically is this: You may want to, in light of his inquiry, consider transferring the responsibility for the development of informants in the Klu Klux Klan White Citizens Council and related "hate" organizations to the Division while leaving the responsibility for investigating bombings, killings, and so forth where it now is. My idea is: This Division can bring to bear all the techniques, skills, and procedures which it has used to successfully penetrate the Communist Party and espionage organizations to now penetrate these hate organizations causing us so much trouble. (In talking to Mr. Tolson this morning I mentioned this briefly to him.)

right when you say that informant development of the right kind is essentially the solution to our current problem. The number of informants per se as we both know, are of no significance. What we must have is the right kind of informants on the right level. The old saying "The proof of the pudding is in the eating" is relevant here because if we had this kind of informant penetration, we wouldn't have some of these unsolved cases now causing us so much concern. This is simply a hard, stubborn fact we cannot theorize away.

- (4) Further, we should expand our informant penetration to cover some of these legitimate but extremist organizations which we have up to now ignored in this respect. They often are "supporting" forces for such as the K.K.K. etc. and we ought to be on the inside of them.

This then is my response to your letter for now. As I have said, the Inspection Division is making the inquiry to ascertain the operational facts and the feasibility of what I suggest.

Re: Inspection - Domestic Intelligence Division

Program now current. Security Index criteria now more flexible in adjudicating individuals who are potential threat to internal security. However, Inspector emphasized necessity of trying to foresee needed adjustments before crises occur, plus need for constant coordination and complete communication between Security Index Desk and all substantive desks. Security Index totals 10,384 (down 736); however, Reserve Index, Section A, increased from 1,053 to 1,355 (up 302). Over-all Index decrease attributed to events severely limiting activities of some individuals, especially prosecutions under Internal Security Act of 1950. Division anticipates resurgence of activities due to Supreme Court decisions declaring parts of Act unconstitutional. Division now alert to and closely following current policy re dissemination to Secret Service. Desk recently established to focus on communist influence in racial problem, now meriting top priority. Inspection Division separately checking Mr. Sullivan's suggestion to reassign part of racial matters from General Investigative Division to Domestic Intelligence Division. Aggressive interview program of security subjects produced ☐ informants, potential informants and sources. Division's programs increased from 31 to 35; all periodically evaluated for productivity causing 7 deletions and 8 additions. As of 7-21-64 mail covers total ☐ (ceiling ☐); controls tightened. Technical informants this inspection ☐ investigative type (ceiling ☐ and ☐ intelligence type (ceiling ☐ - all tightly supervised and controlled. b2

(U) Administrative Operations - Very Good (last inspection - very good). Major reorganization, September, 1963, designed to increase focus on espionage and increase defections among Soviets and satellites seems administratively sound, but Division must constantly re-evaluate continual justification in terms of results. Teamwork and coordination within Division effective but must continue in order to avoid weaknesses in Security Index, Informant Programs, and related activities where various Sections or desks have inter-related responsibilities. Inspector also stressed need for continuing coordination with other Divisions in racial matters, dissemination to Secret Service, etc. Stenographic production notably below Seat of Government average necessitating immediate steps to reverse undesirable trend. Favorable trend noted in reducing correspondence errors. Inspector detected many old ticklers without retention approval; destruction ordered. b2 b7E

☐ Inspector ordered retention approval be obtained. Spot check of policy ticklers revealed some identified symbol informants by true names, symbol numbers or code names; Inspector ordered more secure filing. Spot check of abstracts also reflected considerable highly classified information thereon and no special security afforded; instructed be charged out only on authority of Division official to restrict access thereto; also that field be told to avoid unnecessary highly sensitive information on abstracts. Nine form errors noted in 373 files reviewed (2.41%). Necessary corrective action ordered or taken. No substantive errors detected. Inspector noted one front office secretary not performing described duties, corrective instructions issued.

Personnel Matters - Very Good (last inspection - very good). Total personnel 202 (113 agents, 149 clerical and stenographic); 1 less Agent than at time of previous inspection; considered adequate. No personnel increases requested, but Division did request replacements for pending resignations and transfer - separately handled. One vacant

GS-6 front office secretarial position abolished as result of Assistant Director's curtailed speech and travel commitments. Several Division Agents and clerks on temporary detail to Division specials; although their work has been absorbed, Inspector instructed situation be followed closely to accelerate their release and Division to fully justify need before returning them to normal assignments. Division morale high. Overtime equitably shared and productive. No overweight Agents, 4 on limited duty - justified - all equitably sharing work load. Inspector separately handled personnel matter involving Agent supervisor - no other Division involvement. Suggestion made for improvement of health services available at Riddell Building. Division alert to economy and streamlining.

Contacts - Excellent (last inspection - excellent). Division maintains excellent contacts in Bureau's behalf with numerous agencies and individuals. Liaison with civilian and military Governmental agencies effective. Foreign liaison and foreign police cooperation programs closely supervised. Federal legislation pertaining to Division well coordinated and closely followed. Assistant Director Sullivan has curtailed his speech and contact commitments but speeches by Division representatives substantially increased since last inspection.

RECOMMENDATIONS: 1. Assistant Director William C. Sullivan, EOD 8-4-41, GS-18 at \$20,000, not on probation, in Division since 6-4-54, designated Assistant Director 6-2-61, rated Outstanding on 1964 Annual Rating, has received 2 censures and 10 commendations since last inspection. Mr. Sullivan commands respect and confidence of personnel, is dedicated, loyal, enthusiastic, displays progressive outlook, has vast knowledge of complex security field. Inspection indicates he is well qualified to continue in present capacity. Attached letter to Assistant Director Sullivan will serve to inform Mr. Sizoo of the inspection findings.

~~TOP SECRET~~ DETAILS

~~SECRET~~

PHYSICAL CONDITION AND MAINTENANCE . . . . . VERY GOOD

Division has occupied entire sixth and eighth floors, Riddell Building, 1730 K Street, Northwest, since 8-12-61. Space is adequate and secure, but not completely desirable due to separation of Sections by one floor, thus causing need of additional personnel to maintain security. Also, flow of mail complicated by location outside of the Justice Building. While they are making the best of their "remote" location, economy and efficiency are naturally affected. Situation will be improved, especially in "manpower," when the Bureau's new building is obtained. \*  
b2  
b7E

Space, while well arranged and maintained, allows no room for expansion and is aggravated by the fact the Division gave up 62 square feet of space in the fall of 1963 to enable installation of most important secure telephone equipment for communication within the intelligence community. (U)

(U) (S) (U) (U) [Redacted] The loss of this space has resulted in crowding the Liaison Section which is doing its best under the circumstances. The installation of the telephone system and equipment was completed in January, 1964.

Entire space badly in need of redecorating, but is scheduled to be redecorated the latter part of July, 1964, at no cost to Bureau. Narrow hallways and soft wall construction resulted to an extent in unavoidable chips and mars on walls. Under terms of the lease entered into by General Services Administration (GSA) and H. G. Smithy Company, the lessor, the latter was not required to paint or redecorate until August, 1964. Housekeeping orderly with only minor delinquencies needing correction. Among items noted was a cracked shade over a light in the elevator lobby of the sixth floor which was unsightly. It appeared to have been struck by some pointed object such as a broom or mop handle utilized by the char force. This was ordered replaced to preclude possible future injury. The clerical lounge, sixth floor, was drab and unattractive; Inspector instructed Division to arrange more frequent cleaning by char force, to "dress it up," refurbish, if possible, and provide additional vending machines. These steps would better equate it with eighth floor clerical lounge. Division replaced most old desks and equipment since last inspection and requests for additional equipment currently outstanding and justified. Instructions given by Inspector to follow closely all requests for repairs and equipment until resolved.

Physical security of the Division's space is satisfactory, and irregular, unscheduled checks of Division space outside of regular working hours are made on the frequency of at least once each week by Assistant Director, Section Chiefs, Branch Chiefs, and Number 1 Man. Review of the administrative file recording these checks disclosed some instances of entries dating back to 1963. Instructions given to retain these records no longer than 60 days. 10 Special Agents assigned to the Division instructed to obtain new credentials because photographs outdated and not good likenesses. No delinquencies noted in the condition of 2 of 3 cars assigned to the Division's Liaison Section. Storage facilities for these cars is adequate, safe and secure.

**SPECIFIC DIVISION OPERATIONS . . . . . VERY GOOD**

As of 6-30-64, Division had a total of 22,417 pending matters (20,056 active) compared to 21,459 (19,217 active as of 11-30-62) or an increase of 839 cases. (Source of figures: Report prepared by Administrative Division captioned "Pending and Delinquent Matters by Major Categories" - which is compiled from field Administrative Reports.) Field delinquency in major categories 6-30-64, 8.2% compared with 6.1% at last inspection (10-31-62); increase attributed to number of expedite "specials" (including Lee Harvey Oswald case) using much manpower. Division ordered to reduce delinquency. Soviet Section is credited with \$1,258,963 in savings and recoveries, an increase of \$585,642 over last inspection; prosecutive action instituted in 5 Soviet espionage cases - 2 awaiting trial and convictions obtained in remaining 3; cases resulting in diplomatic action increased from 11 at last inspection to 14 - including 4 Soviets being declared <sup>b1</sup> persona non grata (2 at last inspection)

In addition, double agents in [ ] field increased from [ ] last inspection to [ ] current inspection. Inspector ordered intensified efforts to develop double agents in Washington Field area. <sup>b2</sup>

Research-Satellite Section was formed in Division reorganization in September, 1963, designed to intensify productive coverage of satellite countries. While progress has been made by development of double agents, continued intensification to fully exploit this potential is needed. <sup>b1</sup>

<sup>(S)</sup> Internal Security Section continues vital coverage of Communist Party. 2 top-level informants (Solo Operation)

[ ] permitting commendable dissemination to White House. Ingenious counterintelligence action caused public expulsion of Communist Party National Committeeman. Division should exploit similar opportunities. Section recently instituted desk to focus on Communist Party influence on racial problem, now meriting top priority. Inspection Division separately evaluating feasibility of Mr. Sullivan's suggestion to reassign certain phases of racial matters from General Investigative to Domestic Intelligence Division. Nationalities Intelligence Section credited with conviction in Registration Act matter.

Subversive Control Section obtained Passport Violation conviction (now under appeal). Emergency Detention Program is current. Security Index criteria made more flexible since last inspection (10/31/62) in adjudicating individuals who are potential threat to internal security; however, Inspector emphasized necessity of trying to foresee needed adjustments before crises occur, plus need for constant coordination and complete communication between Security Index Desk and all substantive desks. As of 7/10/64, 10,384 names on Index, 11,120 last inspection or decrease of 736. While there was a decrease, Section A of Reserve Index increased from 1,053 (last inspection) to 1,355 or increase of 302. Reserve Index, Section A subversives to receive intensive investigation and interrogation under Emergency Detention Program after apprehension of Security Index subjects. Since last inspection, [ ] individuals interviewed which resulted in obtaining informants, potential informants and sources totalling [ ]. Over-all decrease in Security Index is attributable to number of events that severely limited the activities of some individuals, especially prosecutions under the Internal Security Act of 1950. Division contemplates there will be a resurgence of activities due to Supreme Court's recent decisions in declaring certain parts of the Internal Security Act of 1950 as unconstitutional. Liaison Section maintains contact with other Government agencies where there are mutual interests in order to achieve the most effective results. It is evident this Section is functioning effectively and safeguarding Bureau's interests in our investigative and intelligence operations. Additional responsibility added to this Section in view of increased threats to persons of interest to U. S. Secret Service. Dissemination to Secret Service now satisfactory. Division alert to and closely following current policy. b2

The Defense Plans are current and closely scrutinized. The Foreign Liaison operations have enabled the Bureau to maintain contact with foreign police agencies and to have the benefit of firsthand knowledge concerning developments in those countries. Since last inspection this Section has assumed responsibility relating to police training Liaison phases of the program of Agency for International Development. b1

(S) Division programs productive and periodically re-evaluated. Division now has 35 programs (31 at last inspection). Since last inspection 7 nonproductive programs deleted and 3 added. [ ] Program since last inspection realized data valued at \$3,340,000. Mail covers as of 7/21/64 totaled [ ] (ceiling [ ] - tightly controlled. Technical informants total [ ] investigative and [ ] intelligence (allowed [ ] investigative and [ ] intelligence) - tightly controlled. Informant program getting aggressive attention. Security informants now total [ ] (last inspection). [TOPLEV] Program has developed several valuable sources. Quality informants stressed. b2

ADMINISTRATIVE OPERATIONS . . . . . VERY GOOD

(U) In September, 1963, the Division effectuated a reorganization which mainly involved the Espionage and Central Research Sections. The distribution of responsibilities that occurred in this redirection of security work seems to be sound; designed to increase focus on espionage and increase defections among Soviets and satellites; however, the operation thereof should continue to be closely scrutinized by the Division and evaluated in terms of results.

Memorandum to Mr. Tolson  
Re: Inspection - Domestic Intelligence Division

In light of the Lee Harvey Oswald matter, ~~Inter-Division~~ ~~SECRET~~ coordination has been strengthened but must continue in order to avoid weaknesses in Security Index, Informant Programs, and related activities where various Sections or desks have interrelated responsibilities. Complete coordination concerning matters of mutual interest, such as racial problems, dissemination to Secret Service, etc., between Domestic Intelligence Division and General Investigative Division must be emphasized constantly to insure all matters of dual interest are thoroughly and freely exchanged on an expeditious basis without fail.

Teamwork was noted and work load is equitably distributed. Flow of mail satisfactory. No instances were determined in which mail deadlines were not being met. Division instructed to insure delinquent items kept to absolute minimum and any item is positively justified.

Stenographers and typists combined production 2.07 pages per hour (last inspection 2.19 pages per hour). Current Seat of Government combined average is 2.88 pages per hour. Division is taking immediate steps to reverse this undesirable trend by emphasizing that each stenographer and typist be closely trained, guided and supervised in order to become experienced and reach maximum production in line with ability in shortest time possible. Favorable trend noted in reduction in errors of correspondence.

Registers, time and attendance records being maintained properly. 1 clerical error noted and ordered corrected. 1 Agent error noted in voluntary overtime - fringe benefits not affected. Odd-hour shifts justified.

b2  
b7E

Inspector determined several tickler files contained copies of correspondence beyond permitted 60-day period. Inspector instructed all such ticklers not having retention approval be promptly destroyed. [REDACTED]

Inspector instructed retention approval be obtained. A spot check of policy ticklers revealed some identified symbol informants by true names, symbol numbers or code names. Instructions issued by Inspector that these ticklers be filed under more secure conditions to minimize possibility of unauthorized personnel identifying the source.

During the course of file reviews, abstracts were checked in several cases involving high-level informants. The abstracts revealed name of informant, code word used to conceal his identity, and pertinent information concerning the informant, and no special security afforded. Suggestions issued by Inspector that abstracts dealing with certain cases were to be charged out only on authority of an official of the Domestic Intelligence Division to insure only authorized personnel are having access thereto. Further, instructions were given that the field is to be advised that abstracts prepared in these types of cases should avoid inclusion of unnecessary highly sensitive information.

PERSONNEL MATTERS . . . . . VERY GOOD

Personnel appeared alert, capable, enthusiastic and busy on essential work. Morale high.

Training programs for Agent personnel effective; however, training of stenographers and typists needs intensification to increase their productivity. Agent and clerical semiannual conferences satisfactory. Conferences monitored were thorough, with good variety of material, excellent participation and exchange of ideas. Overtime adequate, productive and equitably shared (March - May, 1964, average 2 hours, 24 minutes). Membership in FBI Recreation Association 99.2% and activities well attended. Contributions to "The Investigator" excellent in quality and quantity. No deficiencies noted in operation of Division Fund. Incentive Awards and Commendations Programs well handled. One vacant GS-6 secretarial position abolished as no longer justified in view of Assistant Director's curtailed speech and travel commitments. Promotional Availability List, exit interviews, rest periods, and availability of Agents satisfactory.

All Agents current on annual physical examinations; none overweight; 4 on limited duty - justified, and all equitably sharing work load. 5 work-related injuries since last inspection necessitates continued emphasis on accident prevention. Although Division provides a limited type of health service to personnel, Inspector suggested First Aid training be afforded to responsible employee and list of doctors available in emergencies be prepared - Division agreed.

Inspector handled inquiry into allegation by outside source that liaison agent (B. A. Wells) was critical of Director (administrative action separately handled). Findings indicated no Division weakness involved.

Total personnel as of 7-2-64 was 262, including 113 Agents, 149 clerks and stenographers; Division has 1 less Agent than at time of previous inspection. Personnel adequate but Division has requested replacements for resignations and transfers to maintain current staff - justified and separately handled. Division appears alert to economy and streamlining.

Several situations currently exist wherein Division personnel are out of normal assignment to assist on specials such as the Lee Harvey Oswald case, special review of Soviet defector cases, and racial matters, and their work is being handled

CONTACTS . . . . . EXCELLENT

Assistant Director Sullivan and Agent supervisors maintain excellent contacts in Bureau's behalf with numerous agencies and individuals in a position to assist the Bureau in discharging its responsibilities. Close liaison is maintained on a regular basis by Division personnel with civilian and military Governmental agencies. Foreign liaison and foreign police cooperation closely supervised. Federal legislation of primary interest to this Division is well coordinated and closely followed. Assistant Director Sullivan has severely curtailed his lecture and speech commitments and contact work; however, total speeches by Division representatives show substantial increase over last inspection period.

PERSONAL ATTENTION

Mr. William C. Sullivan  
Federal Bureau of Investigation  
Washington, D. C.

Dear Mr. Sullivan:

I have reviewed the results of the recent inspection of the Domestic Intelligence Division, and, based on the Inspector's findings, have approved the following ratings for your operations: Contacts - Excellent; Physical Condition and Maintenance, Specific Division Operations, Administrative Operations, and Personnel Matters - Very Good.

The space occupied by your Division was found to be arranged to make the best of a tight space situation and the natural disadvantages incidental to operations located on separated floors. This condition should be alleviated when our new building is available. The Inspector found your space well maintained, except for minor housekeeping delinquencies which should be promptly corrected. You should promptly implement the Inspector's suggestions to improve the appearance of the sixth floor clerical lounge. Also, you must follow closely with the building management to insure that the scheduled redecorating of your space is promptly completed. Continue to emphasize to all employees their responsibility for sharing constant alertness to proper housekeeping procedures and the necessity for maximum security in your operations. Although your Division was making security spot checks with desirable frequency, it was unnecessary for you to retain records of such checks for longer than sixty days. The Inspector also noted that ten Agent Supervisors should obtain new credentials because the photographs on their current ones were too old to be good likenesses. You should see that this condition is promptly corrected.

It is reassuring to learn of continued significant accomplishments from programs designed to uncover illegal agents and

(U) a number of such achievements since the last inspection, including the substantial increases in savings and recoveries, espionage convictions, expulsion of undesirable Soviet diplomatic officials, and double agents developed. These achievements vividly illustrate the magnitude and persistence of the threat, and we must not relax our aggressive and imaginative leadership so necessary to stay fully abreast of our responsibilities. This includes periodically re-evaluating existing programs, eliminating those not productive, tailoring others to meet changed conditions, and constantly devising new techniques to better answer the challenges posed by the enemy. I am pleased to learn the Security Informant Program is receiving vigorous attention, that the quality of intelligence furnished by highly placed informants is excellent, and that additional (top-level) informants have been developed with emphasis on quality. (C)

The Inspector assures me the Emergency Detention Program is receiving close attention and the Security Index criteria have been made desirably flexible to permit needed adaptation to changes in the security picture. Profiting from past experience, however, I must insist that every possible effort be exerted to keep the Security Index and related policy up to the moment so as to avert any inadequacies in times of crisis which might have been reasonably foreseen. You must also provide for complete coordination and full exchange of pertinent information among all interested substantive desks so that the Security Index, itself, will always be in an accurate status. Closely related to this, and a by-product of the Lee Harvey Oswald case, is the imperative necessity to insure all pertinent data is promptly reported and disseminated to the United States Secret Service.

The major redirection of security work effected in September, 1963, appears to be achieving its primary objective of intensifying our focus on espionage and productive penetration of Soviet and satellite activities. Here again we must not lose sight of the fact that distribution of such closely interrelated functions among separately administered sections makes it mandatory that coordination and communication continue at maximum efficiency. This must be frequently spot checked by you.

The desk recently established in the Internal Security Section to focus on the extent of communist influence on the racial problem must be carefully supervised to make certain the Bureau is completely cognizant of all pertinent information concerning this top priority matter. As you are aware, the Inspection Division is separately conducting a complete inquiry into your suggestion to reassign part of the responsibilities for racial matters from the General Investigative Division to the Domestic Intelligence Division, and you will be advised promptly of whatever decision is reached.

Mr. William C. Sullivan

~~SECRET~~

The increase in field delinquency involving security matters concerns me. Despite involvement of many field agents in priority specials, your supervisory staff must insist these delinquencies be kept to a minimum, and all possible guidance toward this end should be given, including ideas for greater efficiency and fuller utilization of manpower. While your mail covers and technical informant quotas are closely adhered to and these matters carefully supervised, nevertheless, in view of recent public scrutiny of such unusual investigative techniques, you must continue to exercise the strictest possible control and evaluate each request carefully on the basis of absolute necessity. The long-range interests of the Bureau must never become overshadowed by temporary expediency or zeal.

I am pleased to learn no substantive errors were found in files reviewed during the inspection, that form errors were low, and that errors in correspondence were being reduced. These findings are a credit to you and your staff, and I urge all to continue this noteworthy performance. On the other hand, your stenographic pool production remains below the current Seat of Government average. You must take immediate steps to reverse this trend by emphasizing better supervision and intensified training. I am also concerned that your Division reported five work-related injuries since the last inspection. Relentless stress must be placed on accident prevention and each employee thoroughly impressed with the need for safety. The Inspector's suggestions for improving the limited health service facilities available to your personnel should be implemented without delay.

The Inspector indicates you are handling an increased work load with one less agent than at the time of the prior inspection; further, that you have been creditably alert to streamlining and economy of manpower. This is gratifying. Incidental to abolishing the secretarial vacancy in your front office, the Inspector's inquiry reflected your immediate secretary was not functioning completely in accordance with her described duties. The Inspector's corrective instructions regarding this situation must be carried out and this condition not permitted to recur.

I note the Lee Harvey Oswald case continues to be handled as a "special" in the Soviet Section which also has a "special" to review Soviet defector cases. Because these assignments keep personnel detached from regular duties which have to date been absorbed by remaining personnel, you must follow these situations daily to insure all personnel are fully needed on the "specials," that the "specials" are terminated as early as possible, and prior to returning any employee to his normal duty, that you ascertain the essential work load fully justifies the need.

Mr. William C. Sullivan

It should not have been necessary for the Inspector to detect old ticklers being retained without justification or required authority. Similarly, a running memorandum was being maintained in the Liaison Section without prior authority. Regardless of the value of such reference material, sound administration demands full compliance with the existing regulation requiring approval of the appropriate Assistant to the Director before such can be retained beyond sixty days. Make certain there are no such instances in the future.

I was also concerned to note security weaknesses reflected in the maintenance of certain policy ticklers as well as the contents and control of abstracts. The Inspector's instructions and suggestions for strengthening this security should be promptly implemented and periodically spot checked to insure accomplishment of intended objectives. Security of our communications must be our constant concern.

The personnel matter which originated outside the Bureau and which was separately handled by the Inspector caused me great concern. Although the findings indicated no administrative weakness, the mere fact that it involved a Special Agent entrusted with outside liaison responsibilities heavily underscores the importance of being absolutely certain that personnel recommended for these key positions are and continue to be of top caliber in every essential respect.

I was pleased to learn that the Liaison Section is effectively handling its responsibilities which I consider most important to the Bureau's efficiency and progress. There have been some significant increases in these duties, including those related to foreign police training and increased dissemination to Secret Service. We must not permit these to become routine because both touch upon matters vital to the Bureau's future.

You should carefully study the inspection findings which were brought to your attention during the inspection and review them thoroughly with your supervisory staff. Please see that the suggestions made by the Inspector are promptly implemented. The Inspection Division should be advised as soon as possible of all action taken to comply with the instructions contained herein and with those of the Inspector.

Sincerely yours,

Last week I sent through my vacation schedule which was approved relative to a hunting trip I had made arrangements for in the Ontario wilderness area. Because of the [ ] case which has since gone to trial and also because of the work related to the Warren Report, this is a very inappropriate time for me to be away from my desk and its responsibilities. Therefore, I have cancelled my plans for the hunting trip and will remain here.

Further, I was to give a lecture on the evening of October 1, 1964, at Marquette University, Milwaukee, Wisconsin. Again, because of the prevailing situation and its work load, I believe it will to send a substitute to take this lecture. I recommend that Mr. Charles D. Brennan, Number One Man of the Internal Security Section, who is a talented speaker and who will do a very fine job, handle this assignment. He has handled a number of such assignments before.

## RECOMMENDATION:

(1) That administrative notations be made that I have cancelled my vacation.

REC-143

(2) That Mr. C. D. Brennan be approved for the lecture at the University of Marquette (on approval, I will handle the matter with our Milwaukee office by telephone).

# Memorandum

TO : MR. TOLSON

DATE: September 30, 1964

FROM : J. H. GALE

SUBJECT: SHORTCOMINGS IN HANDLING LEE HARVEY OSWALD  
MATTER BY FBI PERSONNEL

With regard to Warren Commission report Director noted, "I want this carefully reviewed as pertains to FBI shortcomings by Gale. Chapter 8 tears us to pieces. Also I want memo of what we have done to plug our gaps. I also want to make certain we check and make certain proper disciplinary action has been taken against those responsible for derelictions charged to us."

Memorandum dated December 10, 1963, Mr. Gale to Mr. Tolson, recommended the following administrative action, which was approved, as a result of a review of Oswald's file by Inspector which reflected serious shortcomings:

## DALLAS

1. James P. Hosty, Jr. (Veteran) - Censure and probation for inadequate investigation including failure to interview Oswald's wife until after assassination, delayed reporting, failure to put subject on Security Index, and for holding investigation in abeyance after being in receipt of information [that subject had been in contact with Soviet Embassy, Mexico City.] (S)(u)

2. Field Supervisor Kenneth C. Howe (Nonveteran) - Censure and probation for failing to insure that case more fully investigated and reported, for not placing subject on the Security Index and for concurring in decision to hold investigation in abeyance.

3. [redacted] (Veteran) - Censure for failing to have Oswald case reopened after Dallas informed that he subscribed to "The Worker," east coast Communist newspaper, 9/28/62.

4. SAC J. Gordon Shanklin (Nonveteran) - Censure for over-all responsibility in this matter.

5. SAC Curtis O. Lynam (now in San Francisco) (Nonveteran) - Censure for over-all responsibility in this matter.

## NEW YORK

1. Francis L. Lundquist (Veteran) - Censure for failing to promptly disseminate Fair Play for Cuba information to Dallas concerning subject Oswald.

2. [redacted] (Veteran) - Censure for failure to insure that Fair Play for Cuba information concerning Oswald more promptly disseminated to Dallas.

NEW ORLEANS

1. [ ] (Nonveteran) - Censure for delayed reporting and failure to put on Security Index. Mr. [ ] is now retired.

2. SAC Harry G. Maynor (Nonveteran) - Censure for failing to insure that there was no delay in reporting this matter and for failing to put subject on the Security Index.

SEAT OF GOVERNMENT

b6  
b7c

1. Supervisor W. Marvin Gheesling (Veteran) - Censure and probation for failing to instruct the field to conduct background investigation concerning Oswald, upon Oswald's return from Russia; failing to have Oswald's wife interviewed; also for removing stop on Oswald in Ident on 10/9/63; failing to put Oswald on Security Index and for not reopening Bureau file to follow on Dallas after Dallas sent out letter on 3/25/63 to consider interview of Oswald's wife.

2. Supervisor Elbert T. Turner (Nonveteran) - Censure and probation for failing to take action on CIA teletype 10/10/63; failing to completely review file until after assassination; failing to instruct field to press more vigorously after subject made contact with Soviet Embassy, Mexico, and failure to have subject placed on Security Index. (u) (S)

3. Supervisor [ ] (Veteran) - Censure for failing to place Oswald on Security Index, in spite of considerable Fair Play for Cuba Committee activity coupled with previous Soviet defection background.

4. Supervisor [ ] (Veteran) - Censure for delay in handling incoming 10/18/63 cablegram from Mexico City and for not putting subject on Security Index.

5. Section Chiefs W. Raymond Wannall, Jr.; William A. Branigan; Inspector Donald E. Moore, and Assistant Director W. C. Sullivan (all Nonveterans) - Censure for over-all responsibility in this matter.

The Commission has now set forth in a very damning manner some of the same glaring weaknesses for which we previously disciplined our personnel such as lack of vigorous investigation [after we had established that Oswald visited the Soviet Embassy in Mexico.] The Commission specifically criticizes Agent Hosty for not making more vigorous efforts to locate and interview Oswald regarding unresolved matters and Inspector feels this criticism certainly is valid. Hosty testified that certain information furnished by New York on Oswald's contact with the Fair Play for Cuba Committee was "stale" when he received it and this statement is set forth in the Commission's report. As indicated above, a New York Agent and Supervisor were censured for this delay. Hosty certainly should not have testified that information from New York was "stale." Hosty testified concerning his failure to conduct investigation from November 5, 1963, (u) (S)

Memo for Mr. Tolson  
Re: Lee Harvey Oswald

until after the assassination. Hosty stated that on November 1, 1963, he received a copy of the New Orleans report which reflected that Oswald had given false biographic information and Hosty stated he knew he would eventually have to investigate this and was "quite interested" in determining the nature of his contact with the Soviet Embassy in Mexico City. "When asked what his next step would have been Hosty replied: (S)(u)

"Well, as I had previously stated, I have between 25 and 40 cases assigned to me at any one time. I had other matters to take care of. I had now established that Lee Oswald was not employed in a sensitive industry. I can now afford to wait until New Orleans forwarded the necessary papers to me to show me I now had all the information. It was then my plan to interview Marina Oswald in detail concerning both herself and her husband's background.

"Q. Had you planned any steps beyond that point?

"A. No. I would have to wait until I had talked to Marina to see what I could determine, and from there I could make my plans.

"Q. Did you take any action on this case between November 5 and November 22?

"A. No, sir."

When questioned by Commission concerning why he did not disseminate the information on Oswald to Secret Service, Hosty testified he interpreted his instructions as requiring some indication that the person planned to take some action against the safety of the President or Vice President before making such dissemination. He testified he participated in transmitting two pieces of information to Secret Service pertaining to President's visit. He further stated he did not realize the motorcade would pass the Texas School Book Depository Building. He testified he did not read the newspaper article describing the motorcade route in detail since he was interested only in the fact that the motorcade was coming up main street "where maybe I could watch it if I had a chance." Inspector feels that Hosty's testimony as quoted in the Commission report makes the FBI look ridiculous and definitely taints our public image for efficiency. If we had made a proper investigation of Oswald we would not have been so vulnerable.

Memo for Mr. Tolson  
Re: Lee Harvey Oswald

In connection with interview of Mrs. Ruth Paine on November 1 and 5, 1963, the Commission indicates that Mrs. Paine advised a Bureau Agent that she did not know Oswald's address. She was not asked nor did she volunteer Oswald's telephone number, which she did know. The Commission intimates that Agent should have asked her specifically re phone number so Oswald's current residence could be located. This interview was conducted by Agent Hosty. Hosty advised he did not ask Mrs. Paine re Oswald's telephone number inasmuch as Mrs. Paine informed Hosty she did not know Oswald's address or how he could be located. Inspector feels Hosty should have been more specific in his interrogation and asked Mrs. Paine if she had Oswald's telephone number.

Hosty also testified that conditions in the Dallas police station at time of detention and interrogation of Oswald were "not too much unlike Grand Central Station at rush hour, maybe like the Yankee Stadium during the World Series games." It is questionable whether Hosty should have described conditions in such an editorializing and flamboyant manner but rather should have indicated conditions were crowded and if called upon to give an estimate of how many people were located therein, to give said estimate.

b6  
b7c

The Commission's report reflects that after the assassination a number of boxes which appeared to be used as a gun rest by Oswald in the Texas School Book Depository Building were processed for fingerprints by both the Dallas Police Department and the FBI. Some of Oswald's prints were found thereon, but the Commission noted that "most of the prints were found to have been placed on the carton by an FBI Clerk and a Dallas Police Officer after the carton had been processed with powder by the Dallas police." Special Agent Vincent E. J. Drain advised he instructed Clerk [redacted] that the cardboard boxes were evidence, had to be processed for fingerprints, and under no circumstances was he to touch them with his bare hands in wrapping same so Special Agent Drain could personally carry them to the Bureau. [redacted] denies Drain told him to wear gloves or any covering on his fingers. He is an experienced Clerk and states he is well aware that his hands are not to come in contact with evidence to be examined for fingerprints. [redacted] advised he has never previously wrapped original evidence but only evidence packages

Memo for Mr. Tolson  
Re: Lee Harvey Oswald

which had been prepared with evidence sticker by Agents. He states instant package did not have any label indicating it was going to the Latent Fingerprint Section and only information he had was that it was to be handcarried to Bureau headquarters. Inspector feels Special Agent Drain culpable for not more closely handling and supervising this matter to insure that the Clerk's fingerprints were not placed on the evidence, particularly in view of the importance of this case.

The Commission report indicates that we did not have a stop on Oswald's passport with the Department of State and did not know Oswald applied for a passport in June, 1963, to travel to Western European countries, Soviet Union, Finland and Poland. This is another specific example of how this case was improperly investigated. The same personnel are responsible for this example as were previously criticized for not using appropriate techniques and making a more vigorous and thorough investigation, to determine with whom Oswald in contact or whether he had intelligence assignment (Retired SA John W. Fain, SA James P. Hosty, Jr., former Dallas Supervisor Kenneth C. Howe, Seat of Government Supervisors W. Marvin Gheesling and Elbert T. Turner). The Bureau by letter to the Commission indicated that the facts did not warrant placing a stop on the passport as our investigation disclosed no evidence that Oswald was acting under the instructions or on behalf of any foreign Government or instrumentality thereof. Inspector feels it was proper at that time to take this "public" position. However, it is felt that with Oswald's background we should have had a stop on his passport, particularly since we did not know definitely whether or not he had any intelligence assignments at that time.

The Commission has criticized the FBI for taking too restrictive a view of its responsibilities in preventive intelligence work and that even though there were no Secret Service criteria which specifically requested the referral of Oswald's case nor was there any requirement to report the names of defectors, there was much material in the hands of the FBI about Oswald, the knowledge of his defection, his arrogance and hostility to the United States, his pro-Castro tendencies, his lies when interrogated by the FBI, his trip to Mexico, and his presence in the school book depository job and its location on the route of the motorcade which should have been enough to induce an alert agency, such as the FBI, to list Oswald as a potential threat to the safety of the President.

#### OBSERVATIONS:

We previously took administrative action against those responsible for the investigative shortcomings in this case some of which were brought out by the Commission. It is felt that it is appropriate at this time to consider further administrative action against those primarily culpable for the derelictions in this case which have now had the effect of publicly embarrassing the Bureau. It is felt that SA Hosty had the primary investigative responsibility in this case, SA Howe the primary field supervisory responsibility, and Special Agents Turner and Gheesling the primary Bureau supervisory responsibility.

Memo for Mr. Tolson  
Re: Lee Harvey Oswald

It is also felt that the information on Oswald should have been disseminated to the Secret Service. Oswald should have been on the Security Index but was not. In this regard it appears that prior to the assassination we were unduly restrictive in not making available the names of Security Index subjects to Secret Service. It is felt that Inspector Joseph A. Sizoo who has over-all charge of the Security Index in the Domestic Intelligence Division, should be censured for not having sufficient imagination and foresight to initiate action to have such material disseminated to Secret Service. It is likewise felt Assistant to the Director Alan H. Belmont should be censured for the same reason as Mr. Sizoo as well as for his over-all responsibility in the entire matter.

In regard to Hosty, the Director said, "I want Hosty's case shown the Civil Service Board since he is a veteran and ascertain whether they will sustain a dismissal since his derelictions have now publicly disgraced the Bureau." The Administrative Division has thoroughly explored this case with its Civil Service Commission (CSC) contact, [redacted] head of the Veterans Service Staff, [redacted] feels in all probability we would not be sustained. In his view, [redacted] main offense is his mis-handling of the Oswald investigation, and that this is the only possible basis for a successful adverse action against Hosty. However, Hosty was censured and placed on probation 12/13/63 for his grossly inadequate investigation of the case. [redacted] said to take action against Hosty again for such offense would place Hosty in double jeopardy. He said CSC has always ruled that after administrative action has once been taken, the same offense cannot serve over again as the basis for further action. He considers it very unlikely that the after-acquired bad publicity would persuade CSC to depart from this precedent.

RECOMMENDATIONS:

1. SA James P. Hosty, Jr. (Veteran), Dallas, be censured, placed on probation and suspended for 30 days for his derelictions in this matter. (As noted above, he was censured and put on probation in December, 1963, and removed 3/25/64. He was ordered transferred from Dallas 9/28/64.) If approved, to be handled by the Administrative Division.

2. SA Kenneth C. Howe (Nonveteran), Dallas - Censure, Probation and transfer from his office of preference for failing to insure that case more fully investigated and reported, for not placing subject on the Security Index and for concurring in decision to hold investigation in abeyance. (It will be noted that Howe was removed from supervisory duties on 4/9/64 as a result of his derelictions in the Oswald case.) If approved, to be handled by the Administrative Division.

It will be noted that on 4/8/64 Gheesling was ordered transferred, because of his derelictions in the Oswald case, to Indianapolis, which transfer and prospective demotion from GS-14 to GS-13 were subsequently cancelled in view of the opinion of CSC that the demotion would not be sustained if he appealed. The CSC opinion was based on its "double jeopardy" policy above-mentioned in the Hosty case. It is, therefore, recommended Gheesling's transfer not be accompanied by demotion. This kind of action was recently taken with respect to former ASAC Paul F. O'Connell, Jr., and Supervisor James B. Bennett of San Francisco. If approved, to be handled by the Administrative Division. Re: Lee Harvey Oswald

15. No further action is being recommended concerning Special Agents Francis I. Lundquist and [ ] in New York inasmuch as they were previously censured concerning this matter and they were merely disseminating information from a "bag job," where they obtained and photographed approximately 200 pieces of information. Oswald's name had no significance to processing Agent and he processed patently urgent material first. This information obtained by New York on 4/21/63 sent to Dallas 6/27/63 and Hosty did not report same to Bureau until 9/10/63. Hosty previously admitted "possibly" would have been better to have reported earlier. The New York delay did not affect the merits of the investigation.

It is noted that SAs Hosty, [ ] Gheesling, Anderson, [ ] are veterans with more than a year of Bureau service. Accordingly, they should be entitled to 30 days' written notice in the event they should be involuntarily separated, reduced in grade or salary or suspended for more than 30 days. They would also have a right of appeal to the Civil Service Commission for any of these actions.

SUBJECT: TELEVISION APPEARANCE  
ATLANTA, GEORGIA

With Bureau approval, I appeared on a five minute television program for the local television station in Atlanta, Georgia, while in that city on Wednesday, December 22, 1964. Television commentator, Mr. More, was given the questions which the Bureau had approved. However, he didn't stay by these questions and threw such inquiries at me as "In the South, your organization is being referred to as the federal bureau of integration, will you please comment on this?"

While no harm was done I didn't think the final product was very good.

This letter, which was sent to my home, states that I have been one of the alumni chosen this year to receive the Alumni Association Recognition Award. This is an award which has been given to various graduates over a period of years. I had no previous knowledge concerning this matter prior to receipt of this letter.

Dear Mr. Sullivan:

It is a distinct pleasure for me to inform you of your selection as one of the three alumni chosen this year to receive the Alumni Association Recognition Award.

This annual recognition was initiated in 1948 to honor alumni who have distinguished themselves professionally or through service to their community or to the University since their graduation. By virtue of your accomplishments you more than qualify; you have brought credit to yourself and to your Alma Mater. We are most happy to note your achievements publicly through the Recognition Award.

The Award will be presented as part of Alumni Day activities on Saturday, May 15, at the Alumni Luncheon. It has been our custom to present this award in person and we sincerely hope you will be able to attend and permit us to bestow this honor upon you at that time.

First announcement to the alumni of your selection will be made in the Spring issue of the Alumni Newsletter. I should appreciate it very much if you would send us a recent photograph for our story about the 1965 Recognition Award winners. Your photo will be returned in good condition.

I hope to hear from you at your earliest convenience that you will be with us on May 15th, and that your photograph is on the way.

Sincerely yours

Executive Director

Assistant Director Sullivan's wife, Marian, underwent an operation at Providence Hospital, Washington, D. C., yesterday, and I am advised will be in the hospital for about ten days. She is progressing satisfactorily and is in Room 523.

Mr. Sullivan has been reluctant to make this a matter of record, as he considers it his personal problem, rather than a Bureau problem. However, I have told him that certainly the Director would desire to know about this; hence this memorandum.

DETAILS

~~SECRET~~

**PHYSICAL CONDITION AND MAINTENANCE . . . . . VERY GOOD**

Division located in Riddell Building, 1730 K Street, Northwest, since 8-12-61 and fully occupies entire 6th and 8th floors with no room for expansion, Sections and Units logically grouped for efficient use of space; however, not entirely desirable due to separation of space by one floor, requiring additional personnel to maintain security. Inspector made some adjustments in desks to improve coordination of related responsibilities. Economy and efficiency naturally affected, and flow of mail hindered by distance from Justice Building. Completion of new FBI Headquarters Building will alleviate this situation, improve economy.

Space is secure and well maintained. Entire space repainted in Fall of 1964 which has enhanced over-all appearance. Some marks on walls and door bottoms noted; arrangements being made to have spot-painted. Suggestions made to improve appearance of 6th floor clerical lounge. Housekeeping delinquencies ordered corrected. Division instructed by Inspector to periodically remind employees to exercise all possible care in preserving appearance of space. Several electric cords ordered fastened to desks or walls to avoid potential safety hazard; for same reason instructed to remove cane-shaped locking rods from tops of cabinets and store separately when not in place. Eight Agent supervisors instructed to obtain new credentials as photographs outdated and not good likenesses. Three cars assigned to the Division's Liaison Section adequate but not excessive - no delinquencies noted. Garage facilities for these cars satisfactory, safe and secure. Limited outstanding equipment and repair requests justified.

**SPECIFIC DIVISION OPERATIONS . . . . . VERY GOOD**

As of 3-31-65 Division had a total of 30,844 pending matters (28,169 active) compared with 22,417 (20,056 active) on 6-30-64, an increase of 8,427 cases. (Source of figures: Report prepared by Administrative Division captioned "Pending and Delinquent Matters by Major Categories," compiled from field Administrative Reports.) A substantial portion of this increase due to transfer of racial matters to Division in August, 1964. Field delinquency in major categories 3-31-65 - 6.7% compared with 8.2% last inspection (6-30-64). Division instructed to follow racial matters closely on monthly basis with offices having high delinquencies.

Division continues to obtain notable accomplishments in programs to [penetrate Soviet-bloc intelligence,] detect illegal agents, infiltrate, disrupt and (S) neutralize Communist Party, front, and Klan hate groups, and keep White House and appropriate agencies currently advised on subversive and racial activities.

Klan coverage productive, affording identification of individuals involved in acts of violence, such as killers of Mrs. Viola Liuzzo, civil rights worker. At Inspector's suggestion, Division clarifying Manual of Instructions for guidance of field on local Klan data dissemination. Division must continue and intensify penetration of Klan-hate groups, insure prompt reporting and timely dissemination of pertinent data. Considerable data re moral degeneracy and subversive associates of Martin Luther King, Jr., developed, given timely dissemination to White House, Attorney General, and interested agencies. Counterintelligence actions attained some success in disrupting efforts of communist youth W. E. B. DuBois Clubs and Ad Hoc Operation has developed numerous domestic and foreign Chinese contacts, including known intelligence sources. Division must plan and execute vigorous, imaginative counterintelligence action against such new targets as Nation of Islam and American Nazi Party.

Emergency Detention Program current; Security Index criteria modified to permit inclusion of individuals posing threat through support of Communist China or organizations working in behalf of that nation. Essential to remain alert to possible Security Index candidates in Chinese field and increasing Progressive Labor Movement and communist youth activity. Liaison Section: Foreign liaison operations in 11 countries afford Bureau early knowledge of vital developments, have effected location of 302 fugitives; recovery of \$233,019.21 in property and money. New Legal Attache Office established in Buenos Aires, Argentina, 3-3-65, allowing more efficient and economical coverage there and in Brazil. Close contacts maintained with other Government agencies on matters of mutual interest. Section functioning efficiently, safeguarding Bureau's interests and effectively handling dissemination of considerable sensitive data. Defense plans current; revisions promptly made. (U) ADMINISTRATIVE OPERATIONS . . . . . GOOD

Handling of racial matters, other than substantive Civil Rights violations, transferred from General Investigative Division to Domestic Intelligence Division August, 1964. Although this work is now distributed between Internal Security and Subversive Control Sections, primarily to separate intelligence gathering from penetration and counterintelligence aspects, Inspector instructed Division to closely watch this to insure continued separation fully justified and to make certain there is complete coordination between sections and with proper desks in General Investigative Division, to insure matters of dual interest completely covered.

Work load equitably distributed and teamwork noted. Flow of mail satisfactory; no mail deadline problems found.

Desirability of transferring supervision of Executive Order 10501 (Security Classification of Documents) from Legal Research Desk, Training Division, to Domestic Intelligence Division studied and currently under consideration (being handled separately).

Based on Inspection Division proposals, Domestic Intelligence Division in March, 1965, instituted changes in foreign office procedures involving filing of pending serials in folders; change in posting rule period and utilization of control file for name check matters; instructed to closely follow and evaluate results of these changes to improve affected operations. Errors of form noted in 15 of 514 files reviewed for percentage of 2.92 (up from 2.41% at last inspection). Instructed to afford additional attention to avoid errors. One substantive error detected in files for 0.02%;

Decrease noted in pages retyped due to stenographic errors; retypes due to agent errors up. Division instructed to impress upon agents necessity of thorough preparation prior to dictation.

Five agent and 3 clerical errors detected in review of registers and time and attendance records; 4 were in computation of voluntary overtime, none affecting fringe benefits. Need to closely check registers stressed. Handling of case and correspondence ticklers satisfactory. Correspondence errors decreased. No abuses of sick leave noted.

Inspector's suggestion to relocate Agents within Soviet Section implemented to improve efficiency and coordination in handling related cases. Suggestion also made to realign work in Nationalities Intelligence Section, with all China-Asia matters in one unit, all non-Soviet-bloc nationality matters, except Cuba, in a second unit, and all Cuban matters in third unit, to achieve greater concentration on increasing Chinese matters - Division agreed. In view significant developments in Chinese Communist picture, Division instructed to coordinate closely with Laboratory and Administrative Division to insure Bureau's current and future needs for Chinese language trained personnel would be met.

Odd-hour shifts justified. Inspector suggested and Division agreed that 2 supervisors on weekday shifts between 4:00 p. m. and 8:00 a. m. be assigned to Front Office of Assistant Director, rather than to Sections for more logical administrative handling - effected during inspection.

Economy in all Division operations strongly emphasized and importance of aggressive cost reduction program stressed. Division instructed to consider Automatic Data Processing in every possible area as economy measure and to enhance efficiency. Inspection determined one telephone could be eliminated in Cuban Unit in conjunction with pending work realignment - will result in \$85.30 annual savings.

PERSONNEL MATTERS . . . . . VERY GOOD

Personnel appeared energetic, capable, enthusiastic and productively occupied. Morale at high level.

Training and indoctrination programs for both agents and clerical personnel generally effective; however, 21 stenographers have less than 1 year's experience and 8 less than six months, necessitating intensified training in this area. Agent and clerical semiannual conferences satisfactory with diversified and interesting agenda. Section

conferences monitored and found thorough, informative and timely with appropriate measures to insure absentees apprised of matters covered. Policy on nondiscrimination and equal employment opportunities appropriately publicized.

Overtime necessary, productive and equitably shared (January - March, 1965, average 2 hours, 22 minutes). Membership in FBI Recreation Association 99% and participation in activities favorable. Contributions to "The Investigator" of excellent quality and number, with one feature article particularly noteworthy.- very desirable trend. Incentive Awards Program satisfactorily handled. Availability of agents, promotional availability list, qualification to drive Bureau cars, exit interviews and position classification matters satisfactory. Residual duties from previously abolished GS-6 secretarial position absorbed by remaining divisional front office clerical personnel.

All agents current on annual physical examinations; none overweight or on probation. 4 agents on limited duty - all productive, equitably sharing work load and retention on present duties justified. Two work-related injuries since last inspection show improvement over 5 for prior period, but imperative there be no letup in precautions to stress safety and eliminate hazards. Satisfactory limited health services available in Division area.

Total personnel as of 4-13-65 was 273 (118 agents and 155 clerks and stenographers) an increase of 5 agents and 6 clerical employees over previous inspection; justified by increased responsibilities and work load resulting primarily from transfer of racial intelligence, informant development, Klan-hate group matters to Division. Personnel adequate, not excessive. Requests for clerical replacements due to resignations and transfers to maintain current staff justified - handled separately. Division has awareness of need for personnel economy and streamlining of operations, evidenced by reduction of agent and clerical personnel in some Sections. In view of anticipated work load increases during 1965 in Internal Security, Subversive Control and Nationalities Intelligence Sections, Inspector instructed continual alertness to redistribute work and streamline to obviate need for additional personnel wherever possible.

CONTACTS . . . . . EXCELLENT

Assistant Director Sullivan and Division supervisors have increased number of contacts in numerous agencies and professions from 388 to 473 since last inspection. Contacts excellent, diversified and located in positions affording valuable and varied services and information in both foreign and domestic fields. Effective liaison maintained by Division personnel with civilian and military agencies. Foreign liaison and police cooperation matters well handled, closely supervised. Legislation affecting Division's

responsibilities being closely followed and coordinated. Assistant Director Sullivan and other personnel of Division have made 66 speeches, radio and television appearances since last inspection, for average of 8 per month (average prior inspection period - 19 per month). Nature and increasing volume of work in Division, including added racial responsibilities, has required continued curtailment of speeches; only selected and important ones being accepted. Division should continue active participation in speeches, commensurate with demands of substantive work.

The Domestic Intelligence Division has been given the following ratings as a result of the Inspector's findings in the recent inspection: Contacts - Excellent; Physical Condition and Maintenance, Specific Division Operations and Personnel Matters - Very Good; Administrative Operations - Good.

The Inspector reported favorably on your efforts to function efficiently in limited space, aggravated since the last inspection by acquisition of racial matters with additional personnel and equipment. While the sections and units are logically grouped for efficient use of space, you should promptly effect the Inspector's suggested desk adjustments to improve coordination of related responsibilities. The space was secure and well maintained, except for some housekeeping delinquencies called to your attention which should be promptly corrected. There were certain potential safety hazards the Inspector ordered removed in that some electrical cords needed to be secured to desks or walls and the locking rods for file cabinets should be stored rather than left on top of cabinets when not in use. The appearance of rooms and hallways has been improved by the repainting completed since the last inspection. Continue to remind employees of the need to share housekeeping responsibilities and accident prevention measures. Strict security procedures must also be periodically reiterated in view of the remoteness and special factors applicable to the Riddell Building. The Inspector determined that eight Agent supervisors should obtain new credentials because the outdated photographs on their current ones are not good likenesses. Please have this situation handled promptly.

(S) The Inspector highlighted noteworthy accomplishments in your continuing [redacted] detection of il- (S)

(S)

[redacted]  
[redacted]  
Programs initiated to meet this situation must take an aggressive approach and double agent activity in that area should be expanded. Supervisory and case realignments suggested by the Inspector to enable more concentrated efforts on Chinese matters should be promptly implemented.

In view of the agreement now awaiting Senate ratification concerning Soviet requests for additional consulates in the United States, you must insure that all steps are taken to keep on top of developments so as to anticipate and meet any increased Soviet espionage activity resulting thereby.

I am pleased by the timely dissemination of valuable intelligence data obtained from live and technical sources. The persona non grata actions based thereon and the advance planning such knowledge enables our Government to do in key diplomacy are invaluable to the domestic as well as to the international well-being of the United States. We must constantly strive to improve our performance in this vital area.

The wisdom of transferring racial matters to your Division in August, 1964, has already been borne out by your significant increase in racial informants and progress to date in the penetration of the Klan and pertinent hate groups. Dissemination of racial intelligence has been most helpful to the White House and interested agencies. But our progress must be considered only a good beginning. The violence and demonstrations to date must be effectively handled and we must do everything necessary to anticipate and plan for the expected summer upsurge. Concentration on such groups as the American Nazi Party and the Nation of Islam should be continued also, including the preparation of additional timely monographs. Inasmuch as the supervision of racial and allied matters is divided between two sections and still other aspects remain in the General Investigative Division, you must make sure there are complete coordination and communication so that no lapses or gaps occur. You and your staff must make frequent spot checks in this regard.

~~SECRET~~

Mr. William C. Sullivan

~~SECRET~~

(U) While some success has been realized in counterintelligence operations against subversive groups, including the W. E. B. DuBois Clubs and others, this activity should be intensified. The [SOLO] Operation supervised in the Internal Security Section continues to produce valuable data and holds even greater promise now that a [ ] informant has been worked into the setup. We must exercise all possible care to preserve the security of this sensitive activity. (S) b2

The Emergency Detention Program was found to be current and closely supervised and the Security Index criteria have been modified to permit inclusion of individuals presenting a threat due to support of Communist China or organizations working in that nation's behalf. You should be alert to all possible candidates for the Security Index arising from the growing volume of Chinese matters, increased activity of the Progressive Labor Movement, and the communist youth groups. Rapid shifts in the security situation demand that the Security Index be ever current and accurate. Constant re-evaluation of criteria must be made to insure proper and adequate standards for inclusion in the Index exist to cover any crises which may arise. It is also absolutely necessary that all pertinent data continue to be promptly disseminated to the United States Secret Service in line with present policy and procedures. The Inspector's suggestion should be promptly implemented whereby supervisors will record on case ticklers in appropriate cases the categories of data previously disseminated so as to avoid calling files for this information.

The Inspector advises that technical informants are being closely supervised and controlled. While established quotas are being appropriately observed, the public sensitivity to such unusual techniques and the tight control exercised by the Attorney General highlight the imperative necessity that the strictest evaluation be given each request. Absolute need and complete security should govern approval consideration in every instance.

(U) The Security Informant Program reflects a significant increase in quality informants since the last inspection. However, though numerous interviews have been conducted under the [TOPLEV] Program, no new informants have been developed in that category. This aspect of informant development must be intensified to insure effective, thorough coverage at all Communist Party policy-making levels. The decrease in average field delinquency in security matters depicts a favorable trend, but the Inspector detected a need for more closely checking offices with high delinquency in racial matters. (S)

Q  
Q  
~~SECRET~~  
Mr. William C. Sullivan

The substantive error detected in one of the files during the inspection indicates a need for closer case supervision. The increase in form errors over the last inspection necessitates additional care in handling files and correspondence. I am pleased that the Inspector, during the current inspection, found your Division had corrected the security weaknesses in maintenance of certain policy ticklers and the unauthorized retention of others noted during the last inspection.

Although production of the stenographic pool has improved since the last inspection, it still remains significantly below the current Seat of Government average. You must take vigorous sustained action to eliminate this serious weakness, including intensified training of the newer employees and more effective supervision. As retypes due to Agent error have increased, supervisors should be required to make better preparation for dictation. While the two work-related injuries reported by your Division since the last inspection are an improvement, accident prevention and safety fundamentals must continue to be stressed.

The Inspector advises the work load is equitably distributed throughout your Division. While the very substantial work load increase occasioned primarily by your acquisition of racial matters was accompanied by additional personnel, the Inspector indicates you have been creditably alert to streamlining and economy of manpower. In view of critical Bureau-wide personnel needs, you must make certain that case load and other factors are continually scrutinized for further opportunities to redistribute work and responsibilities so as to release personnel where possible, absorb vacancies created by resignations or transfers, or prevent requests for additional employees in case of work load increases. Specifically, you should endeavor to handle such anticipated increases in work as Chinese and summer racial matters with your current staff. In view of the strong emphasis being placed on cost reduction programs Government-wide, the Bureau must demonstrate leadership in achieving maximum economy and efficiency. For example, you should periodically evaluate all divisional operations for possible application of Automatic Data Processing or other streamlining techniques. All personnel should be periodically reminded of their individual responsibilities for utmost economy. It is gratifying to note the Inspector rated employee morale high.

The Inspector noted the increased number of excellent, diversified contacts maintained by you and your staff in various agencies and professions. They are located in positions affording valuable and varied

Mr. William C. Sullivan

~~SECRET~~

services and information in both foreign and domestic fields. The Liaison Section is effectively handling its responsibilities by close contact with civilian and military Governmental agencies at home and through closely supervised and productive liaison activities abroad. The Inspector reported that the demands of current work, including added racial responsibilities, have required severe curtailment of speeches by you and your supervisors. Nevertheless, you and other fully qualified key personnel should continue active participation in this vital phase of the Bureau's work whenever the best interests of the organization would be served thereby.

You should carefully study the inspection findings which were brought to your attention during the inspection and thoroughly review them and the observations in this letter with your supervisory staff. Please see that the suggestions made by the Inspector are promptly implemented. The Inspection Division and I should be advised as soon as possible of all action taken to comply with the instructions contained herein and with those of the Inspector.

Sincerely yours,

John Edgar Hoover  
Director

**WILLIAM C. SULLIVAN  
ASSISTANT DIRECTOR  
DOMESTIC INTELLIGENCE DIVISION**

Mr. Sullivan is the Assistant Director in charge of the Domestic Intelligence Division and has the responsibility for the direction, administration and coordination of all investigations of espionage, subversive activities and other matters pertaining to the internal security of the United States which fall within the jurisdiction of the FBI. For the period April 1, 1965, to March 31, 1966, his performance has been so exceptional as to merit the rating of Outstanding.

Without peer in his field, he possesses an extensive and most comprehensive knowledge of subversive activities and forces within the United States which has been of inestimable value to the Bureau in discharging its obligations in this sensitive field. He has meticulously and judiciously carried out his duties, giving inspirational leadership and astute guidance to his subordinates. Endowed with superior reasoning power and good, common sense, he is quick to define objectives and arrive at sound conclusions and to issue sound and succinct directions to his staff. He handles an extremely large volume of most important security matters with skill and dispatch which has had a very important bearing on the over-all success of the Bureau.

Mr. Sullivan's services have been invaluable and his consistently dedicated performance has been reflected in his many achievements under the difficult conditions and circumstances prevailing throughout the country during the past year and clearly justifies the rating of Outstanding.

Professor Foster is an old college roommate of mine and close friend for over 30 years. I have just received word from his home in Texas that Dr. Foster had died of a heart attack. He is being buried in Hackensack, New Jersey, at 10 a.m., Wednesday of this week, April 13. His family has asked if I would be a pallbearer.

If the Bureau has no strong objections, I would like to attend and pay my last respects to an old friend. It so happens that I am scheduled to lecture on Wednesday at 9 a.m., before a gathering at the Inter-American Defense College, Fort McNair, Washington, D. C. This lecture could be very adequately handled for me if the Bureau approves by Mr. Fred J. Baumgardner. *plz*

Dr. Foster worked with Dr. S. A. Waksman in the development of penicillin. He was a very brilliant young scientist from the start. In 1955 he was sent by the United States Surgeon General's Office to Japan to help the Japanese in starting their own penicillin production. In 1951, Dr. Foster visited the FBI Laboratory and offered his services to the Laboratory in any way he could be of assistance. The Director sent him a letter thanking him on February 26, 1951. At that time, Professor Foster told me he was convinced secret writing could be conducted through the use of bacteria. He said he would be glad to go ahead at his own expense and time and experiment in his laboratory at the University of Texas to see if it could be done. He did this and later discussed the process in detail with Dr. [redacted] of our own Laboratory discussing its implications. It is interesting to note that about a year or so ago, we received indications that the Russians probably had arrived at a successful formula for using bacteria as a means of communicating secretly. of a highly technical volume called The Chemical Activities of Fungi which is said to be the most authoritative and definitive of its kind published.

In 1957 Dr. Foster furnished me information concerning Soviet scientists which Mr. Tolson recommended he passed on at once to the Honorable [redacted] to the President. From time to time whenever Dr. Foster developed any information through his scientific contacts relative to the Soviets, he would always pass it on to me. Only a few days ago, he talked to me on the telephone from Texas in connection with a Soviet scientist who visited him and whom Dr. Foster previously met on a trip he took to Soviet Russia. Promptly on his return from his trip to Soviet Russia, Dr. Foster gave me an analysis of his experience there. In connection with this particular scientist, Dr. [redacted], Dr. Foster advised me that he did not regard him as being a true scientist at all and thought he was travelling about the United States and visiting scientists like himself for the purpose of developing contacts and influencing them. Dr. Foster said while the Soviet was reasonably personable, he had no regard for his scientific ability.

PERSONAL

Dear Mr. Hoover:

Upon my return to my office there was waiting for me your thoughtful letter with the information that you had given me an Outstanding Rating along with an Incentive Award.

There is very little that I can say which would express the depth of my gratitude. When I consider the number of years of support which you have given me and the numerous expressions of your kindness and generosity, it is obvious that words are inadequate.

At a time like this, one cannot help but reflect upon the past, the present, and the future. We know what the past has been, we know what the present is, but it is the future which is unknown and must be molded anew each minute, hour, and day. It is my fervent hope that my decisions, efforts, and results produced in the future will enable you to have the same confidence in me as you have made so often manifest in the past. Once again, please accept my deepest thanks.

Parenthetically, may I add that I am also indebted to you for allowing me to attend and participate in the funeral yesterday in New Jersey of my old college friend, Dr. Jackson W. Foster. As the years mount, one attends more and more of such very thought provocative events. Birth, life, and death are the great realities which transcend the pettiness, trivia, and smallness of human nature which we in the FBI are so often confronted with by those who would trample upon the values which make intelligible the origin, purpose, and destiny of our lives.

Cordially,

The above-captioned man has been a friend of mine for some 29 years. He is retiring from the position as Assistant Post Master in Framingham after 45 years in the Government service. He has written and called me to ask if I would attend his testimonial dinner and be a speaker on the evening of July 11, 1966. The affair is to be held in Framingham. Also speaking will be Congressman Harold D. Donohue, who has long been a strong supporter of the FBI.

Cy Shay is the type of man that is often referred to as a "real character." He is a hero of World War I, participating in the major campaigns in Europe at that time. Following World War I he won distinction in Massachusetts as an outstanding athlete. He is the type of man that is always doing something to help those that are in need and as a result of this, he has more friends than there are leaves on the trees. For example, Chief of Police [redacted] who is a National Academy graduate, has also written me asking if I would participate. He advised me there will be around 1400 present at the testimonial dinner and they will include people from every walk of life in that area of the state. Because of my friendship with Cy Shay for three decades, I would like to accept his invitation to be present. He is a man who has done a tremendous amount of good for his community and never expects anything in return, not even a "thank you." I am perfectly willing to take annual leave and pay my own expenses up and back with Bureau permission to make the trip. - not necessary

For some months, I have had annual leave scheduled for the first two weeks in July to spend with my family in New Hampshire. However, in view of the extremely important special project we are working on now relative to technical listening devices, this is no time to be away. Therefore, I am cancelling my annual leave and will resubmit other dates later on.

Counterintelligence efforts to expose communist spawned W. E. B. DuBois Clubs of America continuing. Have informant in contact with leader of Movement for Independence of Puerto Rico. Security Index 9974, down 327 due to dropouts; Reserve Index-A, 1720, up 206. Nationalities Intelligence Section reorganized June 1965 result of Dominican crisis.

(S) [redacted] Information widely disseminated to intelligence community including White House. [redacted]

b1

(S) [redacted] Chinese communist intelligence activities increasing; valuable informants developed. Latin-American Section receiving and disseminating valuable information regarding Dominican situation. Dominican Index, similar to Security Index, established 11/18/65 to record all Dominican subversives in Dominican Republic and other countries. Index contains 413 Dominican subversives. Since establishment, Legat Santo Domingo developed [redacted] informants, [redacted] potential informants, [redacted] confidential source and over [redacted] sources of information, which is noteworthy under operational circumstances.

b2

Since last inspection, Research-Satellite Section has increased active double agents from [redacted] to [redacted] potential double agents from [redacted] and inactive double agents from [redacted]. Efforts to increase double agent coverage [redacted] stressed. Survey ordered to streamline dissemination of teletype data. Division programs periodically evaluated, unproductive ones deleted or revised. Security informants total [redacted] up [redacted] from last inspection. Potential security informants increased by [redacted] [redacted] informants developed under [TOPLEV] program since last inspection, 2 functioning in [SOLO] operation and [redacted] in Nation of Islam. Technical installations very closely supervised and controlled; authority of Attorney General obtained prior to each installation. Legal Attaches credited with location 261 Bureau fugitives (including 2 top ten fugitives), 125 Selective Service delinquents, 68 automobiles, \$263,496 in recoveries.

b2

Administrative Operations - Very Good (Last Inspection - Good). Work load equitably distributed in division. Front office and section supervision smoothly operating and effective. Errors of form detected 2.02% (last inspection 2.92%). No substantive errors detected. Stenographic production (current inspection 2.47 pages per hour) exceeds that reported during previous inspection (2.13 pages per hour); however, still below Seat of Government average of 2.70 pages per hour.

**Memorandum to Mr. Tolson**  
**Re: Inspection - Domestic Intelligence Division**

~~SECRET~~

Over-all percentage of retypes increased from 5.28% to 9.48% which has been due to increase in Agent and stenographic errors. Division instructed to intensify training and indoctrination of personnel. Minor errors detected in time and attendance registers - none affecting fringe benefits. No abuses in sick leave noted. Odd-hour shifts justified. Economy program actively supported by division through streamlining and liaison contacts which have resulted in savings to Bureau. Since last inspection, division has placed 5 new Automatic Data Processing programs in operation. These programs should promote greater efficiency in investigative and administrative operations. There is a continuing need for the Latin-American Section, primarily due to increased work load as a result of this country's involvement in the Dominican Republic situation. Inspector recommended certain changes mail room operation which should streamline operation, provide for closer supervision of employees and cause reduction of clerical complement by one employee.

Personnel Matters - Good (Last Inspection - Very Good). Total personnel 306 (approved Bureau complement set at 129 agents, 177 clerks) up 11 agents and 22 clerks, mainly due to creation of new section (Latin-American) and increased work in Chinese Unit, Nationalities Intelligence Section since last inspection. No additional personnel requested or justified. Analysis of mail room operation disclosed this unit can effectively operate with one less mail clerk (from 13 to 12 clerks). Adjusted personnel complement will be 129 agents and 176 clerks; considered adequate and not excessive and will absorb division case load increase of 4277 cases since last inspection. Two male clerks dropped from rolls during inspection due to personal misconduct (handled separately); Inspector emphasized need for more thorough indoctrination of clerical personnel. Morale high; voluntary overtime productive and equitably shared. No agents overweight or on probation; 4 on limited duty - all productive, retention in division justified. Division conferences disclosed well organized, coordinated, objective and constructive approach. FBIRA membership 100% and active response to FBIRA activities; excellent contribution of items to Investigator since last inspection. 5 work related injuries since last inspection (increased); safety emphasized. Employees recognized through commendations and incentive awards program disclosed substantial increase since last inspection (increase of 100% for incentive awards and 500% for commendations). Personnel advancement program being handled satisfactorily.

Contacts - Excellent (Last Inspection - Excellent). Assistant Director Sullivan and supervisors in division currently maintain 382 contacts, all rated excellent, in varied fields and in position to furnish information and services in foreign and domestic fields. Liaison maintained with civilian and military agencies. Legislation concerning division closely followed. Representatives of division made

The Domestic Intelligence Division has been given the following ratings as a result of the Inspector's findings in the recent inspection: Specific Division Operations and Contacts - Excellent; Physical Condition and Maintenance and Administrative Operations - Very Good; Personnel Matters - Good.

Your office space was found to be efficiently organized and well maintained. While your space is secure, you should follow the instructions of the Inspector regarding the improvement of security. The acquisition of new equipment currently on order should further enhance the appearance and efficiency of your office and should remove potential safety hazards.

(S) Particularly noteworthy are your accomplishments in the continuing  
(U) [redacted] detection of illegal agents (S)  
and effective counterintelligence action against the Communist Party, Klan  
and other subversive groups. While there must be no sacrifice in the quality  
of our sources, you should renew efforts to increase the development of

Mr. William C. Sullivan

~~SECRET~~

You have made timely dissemination of valuable intelligence data obtained from all sources. This information has been of extreme value not only to the Bureau but to other agencies as well in actual policy making on a national and international level.

In view of our vast responsibilities in the racial field, the increase in racial informants and sources is significant. You must continue to insure we are aware in advance of proposed riots, mob action and violence so that effective countermeasures may be instituted by the proper authorities beforehand and appropriate action taken thereafter. The dissemination of racial information to the White House and interested agencies should continue to receive prompt and accurate handling. The close coordination and cooperation between your division and the General Investigative Division must continue in view of the divided responsibility in racial and allied matters.

(U) Counterintelligence measures against subversive groups must be vigorously pursued and new avenues explored. The Solo Operation continues to produce invaluable data and extraordinary efforts must be taken to preserve the sensitive nature of this activity. (S)

The Emergency Detention Program and Security Index were found to be closely supervised and current. There must be a constant re-evaluation of our criteria for individuals recommended for the Security Index and we must be absolutely certain that all candidates who should be included therein are so listed.

Your close supervision and control of technical sources must continue and each should be completely justified. Your approval for consideration of those sources must be governed by this factor as well as the need for absolute security.

(U) The Inspector noted a significant increase in the number of quality informants developed since the last inspection including [ ] TOPLEV (S) b2 (S) informants, two of whom are in the Solo Operation and [ ] in the Nation (S) (U) of Islam group. This should be an incentive to further intensify our efforts to obtain top-quality sources.

The fact that there was no increase in the over-all percentage of field delinquency in security and racial matters, as compared to the last inspection, indicates that your staff is alert to the field's handling of these matters and this procedure must continue so that delinquency is reduced to a minimum commensurate with our over-all responsibilities.

~~SECRET~~

Mr. William C. Sullivan

~~SECRET~~

The Inspector reported your administrative operations were improved over the prior inspection. The five new Automatic Data Processing programs placed in operation should promote greater efficiency in investigative and administrative operations. Your personnel should be alert for additional ways to effectively utilize this equipment.

The increase in the stenographic production since the last inspection is encouraging; however, there is room for additional improvement since overall production is below the Seat of Government average and the percentage of retypes has increased. This calls for additional training and indoctrination of responsible personnel and better preparation by supervisors prior to dictating.

It is encouraging that no substantive errors were detected and that the percentage of errors of form was reduced since the last inspection. The Inspector noted that your newly organized mail room unit was functioning satisfactorily; however, to further improve this operation he offered suggestions which should streamline the operation, provide for closer supervision of employees and result in the reduction of one mail clerk. These suggestions should be implemented immediately.

I am pleased that your staff is aware of the importance of actively supporting the economy program. This has resulted in considerable savings to the Bureau.

I am aware that your division has had increased responsibilities since the last inspection, as evidenced by the sizeable increase in cases supervised by your staff and the creation of a new section to handle cases Latin-American-oriented since the Dominican crisis. Be ever alert to streamlining techniques and the benefit realized from inspiring employees to contribute meaningful and constructive suggestions concerning economy and efficiency.

I was concerned with the thoroughness of your indoctrination of clerical personnel when I was advised during the inspection of the two incidents involving personal misconduct by two of your male clerks. As you know, these two clerks have been dropped from the rolls. I will not tolerate such activities and you must tighten up your program for indoctrinating personnel. I want there to be no shadow of a doubt in the minds of all employees that the Bureau will not tolerate such behavior.

I was pleased to note that the Inspector rated morale as high and that he found overtime productive and equitably shared.

~~SECRET~~

Mr. William C. Sullivan

~~SECRET~~

It is gratifying to note that the Inspector found the contacts of the Division to be excellent and representative of the needs of the Bureau in both the foreign and domestic fields. Liaison is handling its responsibilities through effective contacts with civilian and military agencies and is closely supervising foreign liaison activities.

It was noted during the inspection that you and your key personnel are actively participating in speech matters. You should continue this participation in this necessary phase of the Bureau's work consistent with the demands of current work.

You should carefully review the inspection findings with your supervisory staff. Insure that the suggestions made by the Inspector are promptly implemented. You should advise within thirty days of the corrective steps taken.

Sincerely yours,

John Edgar Hoover  
Director

Dear Mr. Hoover:

Once again I wish to thank you for taking the time to present me with my Twenty-five year Anniversary Key and letter. In particular, I am most grateful to you for both pictures which I will treasure always. The inscriptions mean more to me than I can adequately express.

A quarter of a century is a good segment in any man's life. When this time has been spent in the FBI, it means that it has been packed with more action, experience, and interest than would be possible elsewhere and, so it has been with me. Time has gone with great rapidity. It seems like only yesterday that my mother and sister drove me from our farm to the railroad station in Worcester, Massachusetts, where I left for Washington, D. C.

It has been a great adventure in many different ways. I look forward to it continuing with unabated enthusiasm for the work we are doing. As I told you, I will remain with you just as long as you want me to. There are many years ahead for all of us and we should be determined to accomplish more in those years than we have in any similar period in the past.

For the Bureau's information, Chief Justice LEONARD V. B. He stated that everyone in attendance at the meeting was most impressed by the contents of Mr. SULLIVAN's talk, as well as the excellent delivery made by Assistant Director SULLIVAN. Judge SUTTON stated he felt this is the type of talk that should be given to all Bar Associations and judicial groups all over the United States as it gave the judicial and legal fraternities much real food for real thought and that the things Assistant Director SULLIVAN said were things that needed to be said over and over again. Justice SUTTON said that he had heard only the highest praise along these lines of Mr. SULLIVAN and of his talk.

MEMORANDUM FOR MR. TOLSON

On November 16, 1966, I saw Assistant Director William J. Sullivan, who was leaving for an inspection trip of our Asiatic offices and to also include inspection of our office at Manila, Philippine Islands.

I stressed to Mr. Sullivan my desire to have him make a very penetrative examination in order to see whether we are producing sufficient work to maintain these distant offices and to make a full report upon the same with any recommendations he saw fit to make upon his return to the city.

SUBJECT:

This memorandum is to record the following.

The above-captioned person lives next door to me. He is a man with whom I am unacquainted.  has a young son-in-law who speeds his automobile up and down the street and has been a nuisance in that he keeps parking in front of my house. This has prevented my wife on returning from the store from parking there, and she has to walk long distances with her groceries. I have told him not to do this, which he has in an irresponsible manner ignored. Just before Christmas he ran over a family pet cat in front of the house, although he will not admit this. He killed the cat. Last night he parked again directly in front of my house preventing my wife from putting her car in this one place on returning from the store. In view of this fact, I notified the local police, but it is not likely that they will do anything about it.

b6  
b7c

At times it seems that this obnoxious young fellow almost does this deliberately as there are other places where he could park his automobile. I cannot think of any reason for this unless it is  himself. For example, some time ago this man approached me twice saying that the FBI was investigating him relative to the embezzlement of a large check of some thousands of dollars. He denied having anything to do with it but said he was suspect. It was clear to me that he was trying to see if I knew anything about it. Twice, I very firmly brushed this man aside for I was not about to get engaged in any discussion with him on the matter. He resented this and made it evident in his attitude. This matter to which he alluded was strange for I have not been able to find that we investigated the man. It may be he had guilty feelings and thought perhaps we were doing so.

In connection with Mr. Sullivan's objection to a neighbor parking his car on the street in front of Sullivan's home, it should be noted that the occupant of a residence has no priority in the use of parking space on the street in front of his residence. Therefore, unless [ ] son-in-law was blocking a driveway into Sullivan's garage or private parking space, the son-in-law had a legal right to park in front of Sullivan's home and was not violating any law or ordinance.

Dear Mr. Sullivan:

The Domestic Intelligence Division has been given the following ratings based on the recent inspection: Specific Division Operations and Contacts - Excellent; Physical Condition and Maintenance, Administrative Operations and Personnel Matters - Very Good.

(S) Your office space was considered well organized and maintained. The minor delinquencies brought to your attention during the inspection should be promptly corrected. No security problems were noted.

(S) Your accomplishments in the continuing [redacted] effective counterintelligence action against the Communist Party, Klan and other hate groups, and detection of illegal agents are gratifying. There is, however, no room for any letup in these important matters. You must continue your efforts to increase the development of double agents. [redacted] (S)

(S) You must closely follow the Puerto Rican situation in view of the plebiscite scheduled in July, 1967, and the possibility of militant actions by groups seeking independence.

I expect you to aggressively follow the programs in your division and take prompt action to recommend that unproductive programs be discontinued. Likewise, the need for new programs should constantly be borne in mind. Promptly implement the Inspector's suggestions designed to broaden your investigations of Chinese Communist matters.

(U) The [Solo] Operation is still producing valuable information and every effort must be exerted to preserve the sensitive nature of this activity.

The Security Index and Emergency Detention Programs were found to be supervised closely and current. Re-evaluation of the criteria for individuals recommended for inclusion in the Security Index must be continual. We should also be certain that all candidates who should be included are so listed.

It was noted there was a slight increase in the overall percentage of field delinquency in security and racial matters as compared to the last inspection. You must insure that your entire staff remains alert to the field's handling of these matters and delinquency is reduced to a minimum.

Your work load appeared to be equitably distributed throughout the division. However, a slight drop in the work load of the Research-Satellite Section was noted. This matter should be closely followed by you to insure the overall work load remains equitably distributed.

The production of your stenographic pool has decreased and retypes are too high. I am aware you have new personnel and, therefore, you should emphasize close supervision and training in your stenographic pool.

Your overtime was found to be productive and equitably shared and morale was rated high by the Inspector. I was pleased to see that economy in operations is stressed.

The number of stops placed by your division on incoming communications was sharply reduced during the inspection. Be certain such stops are kept to an absolute minimum in the future.

I was pleased to see that the division is operating effectively with less personnel than during the previous inspection. Your present personnel complement was found to be adequate to fulfill your responsibilities.

Your contacts have increased since last inspection and were found to be furnishing valuable services. The Inspector recommended and you agreed that your list of contacts would be purged every six months rather than annually.

You should carefully review the inspection findings with your supervisory staff. The suggestions made by the Inspector should be implemented promptly. Advise within thirty days of the corrective steps taken by you.

**Re: Inspection - Domestic Intelligence Division**

Subversive Control Section held conference at Seat of Government (10/31 and 11/1/66) to prepare program to deal with Puerto Rican Nationalist matters in view of plebiscite scheduled in July, 1967. Plebiscite to determine form of Government citizens desire and potential for violence exists. In February, 1967, San Juan advised it had reactivated [ ] informant and had [ ] potential security informants with good potential in largest and most militant of groups seeking Puerto Rico independence. b7D b2

(S) Nationalities Intelligence Section furnishes valuable intelligence regarding non-Soviet-bloc countries to intelligence community and White House. Sources provide timely and valuable information [ ]

(S) [ ] Inspector furnished 2 suggestions to broaden base of Bureau operations in [ ] Research Satellite Section has re-emphasized nationality group coverage of extremist elements and other anti-Communist groups. Latin-American Section continues to receive and disseminate pertinent information re Dominican situation. Dominican Index similar to Security Index contains 314 Dominican subversives as Key Figures [ ] b7D b1

(U) Division programs are periodically evaluated with unproductive ones deleted or revised. Division shows imagination and diversified thinking in developing new programs. Inspector recommended deletion of one program in Soviet illegals field because of lack of results for number of years. Suggested another program be carefully considered at next evaluation for possible discontinuance if not productive. Streamlining of Plant Informant Program recommended during this inspection. Division currently holds conferences with representatives from various field offices to develop programs for specific needs. Inspector recommended this technique be used whenever feasible to provide solution to common problems. (S)

Administrative Operations - Very Good (Last Inspection - Very Good). Division work load appears equitably distributed. Slight drop in Research-Satellite Section work load due to fact United Nations session ended in December and not scheduled to resume until April. Front office and section supervision operating effectively and smoothly. Form errors detected 1.91% (last inspection 2.02%). No substantive errors detected. Stenographic production 2.01 pages per hour below Bureau average and down from previous inspection. (Figures include production of 5 stenographers who entered on duty one week before survey.) steno pool and Agent reduction in two sections. No additional personnel requested. Assistant Director agrees personnel adequate but not excessive. Assistant Director indicated possible future need for Special Agent in Central Research Unit for fiscal 1968. Inspector pointed out slight case load drop in Research-Satellite Section and possibility that future needs could be filled from within Division. Assistant Director agreed he would remain alert to fill possible future needs from within Division and if unable to do so would submit full justification for any request.

Contacts - Excellent (Last Inspection - Excellent). Assistant Director and supervisors in Division currently maintain 540 contacts - increase of 158 since last inspection. Contacts in varied fields and in position to furnish valuable information and services in both foreign and domestic fields. Inspector recommended and Assistant Director Sullivan agreed contact list be purged on six-month basis rather than annually.

**WILLIAM C. SULLIVAN  
ASSISTANT DIRECTOR  
DOMESTIC INTELLIGENCE DIVISION**

Mr. Sullivan, as Assistant Director in charge of the Domestic Intelligence Division, has continued his superior performance and has earned the rating of Outstanding for the period April 1, 1966, to March 31, 1967.

In his capacity as Assistant Director, Mr. Sullivan is responsible for the direction of all matters relating to internal security, espionage, counterespionage, subversive controls and nationalities intelligence. He possesses an extraordinary knowledge of all matters under his direction. A foremost authority on subversive activities in the United States, Mr. Sullivan approaches every problem and investigation in this sensitive field aggressively and forthrightly. He is forward thinking and has been alert to initiate new methods and to implement investigative procedures to achieve the desired goals, which has been of immeasurable benefit to the Bureau in his particular field.

Mr. Sullivan's enthusiastic approach, spirit of self-reliance and sincerity of purpose inspire both trust and respect. His work demands split-second decisions necessitating sound judgment, which has been unerring. The ever-changing situations prevalent throughout the country in areas under his direction result in constant fluctuation of the Bureau's responsibilities, thus requiring an official in Mr. Sullivan's position to possess the highest qualities of leadership and broad vision, of unlimited vigor with a keen understanding of the Bureau's functions and procedures. Mr. Sullivan has clearly demonstrated he possesses these qualities in the highest degree.

Mr. Sullivan's invaluable contributions to the successful handling of the Bureau's obligations during the past year definitely merit the rating of Outstanding.

Dear Mr. Sullivan:

I am pleased to commend, through you,  
the personnel in your division who so effectively

Enclosed is a copy of a telegram I have received from [redacted] of American University. He advises that the Board of Trustees of the University on April 29, approved a recommendation of the Honorary Degree Committee that I be awarded a degree of Doctorate of Law at the commencement June, 4, 1967.

This astounds me as I do not consider I have done anything personally to warrant this degree. Certainly it must be substantially the recognition of the work of the FBI and the position I hold here rather than myself. As my personnel record shows, I was graduated from American University with a Bachelor of Arts Degree in June, 1936.

The success obtained is due, in large part, to their efforts and I want you to express my appreciation to them for their fine services.

Dear Mr. Hoover:

Your remarks at this noontime were magnificent. You hit just the right theme and tone for the audience. I talked to a number afterwards and overheard some others and they all were speaking in superlative terms about your remarks. It could not have been better. Congratulations on another one of your countless jobs excellently done.

Parenthetically, it is a great experience for myself and I think for everybody there. By this I mean there is a fraternal bond among Agents unlike any other that I know. To have been a part of the Bureau and to have shared great days and bad days, the difficulties and the successes along with the satisfaction of achievement in behalf of the country is a shared experience which welds men together down through the years. There probably was not a man there that would not go all the way for you and the FBI when "the chips are down." I was very happy to have the chance to be there to witness what I did.

When you started out as Director of the FBI in 1924, I am sure that little did you ever dream of the pinnacles that you have reached individually and which you have caused the Bureau to reach as a disciplined, purposeful organization.

With warmest regards and admiration.

Cordially,

Bill Sullivan

Dear Bill:

I want to thank you for your letter of yesterday commenting upon my remarks made at the Convention of the Former Agents Society. It was a heart-stirring occasion for me and, as I looked over the audience and saw so many of the faces of old-timers, I couldn't help but realize that through the years we have had really dedicated men who contributed much to the Bureau's image of today.

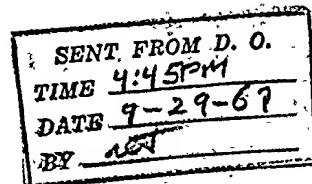

With appreciation, I am

Sincerely,
